- The **first** step of your essay should outline the main topics and provide the background information necessary to understand your argument.
- The thesis statement is the first part of your paragraph. However, it is a concise and one-sentence summary of your main point.
- **Next**, you have to add the body part, which comprises three or more paragraphs that explain why you support your thesis statement. Moreover, each sentence and paragraph should contain or cover different ideas of evidence and contain a topic sentence that clearly explains why the reader should agree with your position.

Teaching and Learning Argumentative Writing in High School English Language Arts Classrooms George E. Newell, David Bloome, Alan Hirvela, 2015-06-05 Focused on the teaching and learning argumentative writing in grades 9-12, this important contribution to literacy education research and classroom practice offers a new perspective, a set of principled practices, and case studies of excellent teaching. The case studies illustrate teaching and learning argumentative writing as the construction of knowledge and new understandings about experiences, ideas, and texts. Six themes key to teaching argumentative writing as a thoughtful, multi-leveled practice for deep learning and expression are presented: teaching and learning argumentative writing as social practice; teachers' epistemological beliefs about argumentative writing; variations in instructional chains; instructional conversations in support of argumentative writing; as deep learning and appreciation of multiple perspectives; contextualized analysis of argumentative writing; and the teaching and learning of argumentative writing and the construction of rationalities. When you take a philosophy class, you're invited to join this party, but walking into a party 2,500 years late can feel a little awkward. This book is meant to solve that problem. The best way to feel welcome is to focus on how funny philosophy is, simply because its ideals are so high that humans almost never manage to reach them. This book gives three answers to the question: What is philosophy? 1. Philosophy is a conversation that has been going on for over 2,500 years, which has been full of comedy from the beginning and will continue to be funny forever if we do it right. 2. Philosophy is a very awkward business that has always been on the verge of going out of business. 3. Philosophy is something that makes almost everyone write very badly. In addition to this three-act comedy, the book also contains two practical guides to being happy and successful in philosophy classes. *The Argument Writing Toolkit* Sean Ruday, 2015-07-16 In order for students to write effective arguments, they need to read good arguments.
