

ACOG Screening Guidelines for At-Risk Women

Breast MRI screening is not recommended for women with an average risk for breast cancer.

Women with an estimated 20% or greater lifetime risk of breast cancer based on risk models, but who are either untested or test negative for *BRCA* gene mutations, may undergo “enhanced screening.”

Enhanced screening is recommended for women positive for *BRCA1* and *BRCA2* mutations; discuss risk reduction methods.

Susan Ward, Shelton Hisley, 2015-06-03 It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in today's maternity pediatric courses A unique emphasis on optimizing outcomes evidence based practice and research supports the goal of caring for women families and children not only in traditional hospital settings but also wherever they live work study or play Clear concise and easy to follow the content is organized around four major themes holistic care critical thinking validating practice and tools for care that help students to learn and apply the material **The Black Woman's Breast Cancer Survival Guide** Cheryl D.

Holloway, 2017-07-14 Breast cancer is reaching epidemic levels especially among black women This survival guide provides

tools that women black women in particular can use to identify and combat this all too common threat This what you need to know guide is unique in its common sense laywoman s approach and particular relevance to women of color Its premise is simple ignorance and lack of education about breast cancer signs and symptoms are still all too prevalent among black women Many women are not informed about resources available for early detection screening and are not referred for mammography screening They may also receive significantly delayed treatment especially black women For those reasons and more black women with or at risk for breast cancer need an advocate who speaks for them and tells them the truth They have that advocate in Cheryl Holloway PhD and in this book A breast cancer survivor and cancer researcher Dr Holloway draws on her personal experience and research to offer something far different than the usual medical oncological works Her book provides support current information and practical advice for confronting and beating the disease The book is divided into four parts Dealing with the Basics explains how breast cancer hits black women harder and discusses the types of breast cancer they may develop with an emphasis on the most dangerous The second section offers practical information such as how screenings work and the meaning of various breast cancer tests Part three describes treatments including surgery radiation therapy chemotherapy hormone therapy combined therapy and other options The final section describes how to stay vigilant after the cancer is gone and also discusses other forms of cancer for which black women are at risk such as lung cancer colon cancer and cervical cancer

, Everything Below the Waist Jennifer Block,2024-03-26 Elle s 30 BEST BOOKS OF THE SUMMER A jaw dropping investigation into the women s health industry Shelf Awareness A fascinating examination of the past and present of women s healthcare Delfina V Barbiero USA TODAY A must read for women especially any woman who might ever need to see a doctor The Washington Post American women visit more doctors have more surgery and fill more prescriptions than men In Everything Below the Waist Jennifer Block asks Why is the life expectancy of women today declining relative to women in other high income countries and even relative to the generation before them Block examines several staples of modern women s health care from fertility technology to contraception to pelvic surgery to miscarriage treatment and finds that while overdiagnosis and overtreatment persist in medicine writ large they are particularly acute for women One third of mothers give birth by major surgery roughly half of women lose their uterus to hysterectomy Feminism turned the world upside down yet to a large extent the doctors office has remained stuck in time Block returns to the 1970s women s health movement to understand how in today s supposed age of empowerment women s bodies are still so vulnerable to medical control particularly their sex organs and as result their sex lives In this urgent book Block tells the stories of patients clinicians and reformers uncovering history and science that could revolutionize the standard of care and change the way women think about their health Everything Below the Waist challenges all people to take back control of their bodies
