Joyce's Finnegans Wake John P. Anderson,2008-07 This non academic author presents his key to opening James Joyce s infamously difficult and endlessly playful novel Finnegans Wake The key was fashioned in Kabbalah an ancient Jewish mystical tradition that as interpreted by Joyce champions independent individualism as the path to the highest spirituality Kabbalah images a universe excreted by the ultimate god a universe that is necessarily finite and limited that came with its own secondary god that is finite and limited the god presented in Genesis that issues blessing and curses designed to make mankind fearful and dependent the curse of Kabbalah Joyce laid this curse in his dream like Book of the Night in the elastic way that the latent or hidden content of a dream distorts the presentation of dream materials Acting like a black hole this curse pressures the main character Harold Chimpden Earwicker to fall to become fearful and dependent just like everyone else that is reduced to the mere initials HCE for Here Comes Everybody Joyce traces this curse from the myths in Genesis to the primal horde the first social organization of humans to the Oedipal Complex and to nation state warfare such as the Battle of Waterloo In a groundbreaking presentation Anderson deciphers word by word the first two chapters and part of the last chapter to show how this key opens the lock He shows for example how the joined ending and beginning of Joyce s wisdom book form the Hebrew word for curse and the ending shows confrontation rather than repression of fear of death as the key to life to your own wake *Reflections on My Call to Preach* Fred B. Craddock,2009 Travel with revered preacher and author Fred Craddock through his early years as he considers what made him take to the pulpit For some reason I felt I had to say Yes or No to the ministry so I could feel free again My siblings and friends talked almost casually about options and preferences as to careers but with no evident sense of urgency Not so with me I did not then nor do I now know whether the burden of choice was a trait of personality a kind of super conscientiousness whether the calling to ministry itself carried a weight a burden peculiar to the task itself Rightly or wrongly when I thought of possibly becoming a journalist that would be a choice 100 percent mine When I considered becoming a minister that was not totally my decision I was responding to God s will for me Of course I had been told that journalists lawyers teachers merchants farmers all could understand their lives as a vocation a calling but what I am telling you is that I perceived I felt I experienced the idea of being a preacher as different and that difference was sobering even burdensome That s why advice about not being in a hurry taking my time was not helpful even if wise If it was my decision why could I not make it now if it was God s decision why did not God tell me or at least tell my father or my mother I prayed for the ache to leave me Excerpt from *Reflections on My Call to Preach*

Cartographic Strategies of Postmodernity Peta Mitchell,2008 The last fifty years have witnessed the growing pervasiveness of the figure of the map in critical theoretical and fictional discourse References to mapping and cartography

are endemic in poststructuralist theory and similarly geographically and culturally diverse authors of twentieth century fiction seem fixated upon mapping While the map metaphor has been employed for centuries to highlight issues of textual representation and epistemology the map metaphor itself has undergone a transformation in the postmodern era This metamorphosis draws together poststructuralist conceptualizations of epistemology textuality cartography and metaphor and signals a shift away from modernist preoccupations with temporality and objectivity to a postmodern pragmatics of spatiality and subjectivity Cartographic Strategies of Postmodernity charts this metamorphosis of cartographic metaphor and argues that the ongoing reworking of the map metaphor renders it a formative and performative metaphor of postmodernity
