## **Metaphors For The Amazon:**

**Chronicling Amazon Town** Richard Pace, Helena P. Lima, 2024-07-03 This book brings together the work of researchers from a variety of fields to provide a comprehensive synthesis of local and regional studies in the town of Gurup in Brazil ranging from archaeological findings to ethnohistory and sociocultural anthropology Digital Media Metaphors Johan Farkas, Marcus Maloney, 2024-11-11 Bringing together leading scholars from media studies and digital sociology this edited volume provides a comprehensive introduction to digital media metaphors unpacking their power and limitations Digital technologies have reshaped our way of life To grasp their dynamics and implications people often rely on metaphors to provide a shared frame of reference Scholars journalists tech companies and policymakers alike speak of digital clouds bubbles frontiers platforms trolls and rabbit holes Some of these metaphors distort the workings of the digital realm and neglect key consequences This collection structured in three parts explores metaphors across digital infrastructures content and users Within these parts each chapter examines a specific metaphor that has become near ubiquitous in public debate Doing so the book engages not only with the technological but also the social political and environmental implications of digital technologies and relations This unique collection will interest students and scholars of digital media and the broader fields of media and communication studies sociology and science and technology studies **Current Approaches to Metaphor Analysis in Discourse** Ignasi Navarro i Ferrando, 2019-09-02 This volume takes up the challenge of surveying the present state of a variety of approaches to the identification analysis and interpretation of metaphor across communication channels situational contexts genres and social spheres It reflects three foremost trends of present metaphor research namely the communicative approach the cognitive modelling approach and the multimodality approach These trends are considered as areas of research emerging on the ground of the Conceptual Metaphor Theory initiated by Lakoff The book intends to show their concomitances as well as mark their diversifying paths The aim is to bring about and make apparent the many connections among assumingly different trends stemming from CMT Whereas discrepancies between communicative and conceptual perspectives might seem irredeemable the book emphasizes and claims that the background framework of CMT provides a solid foundation for collaboration and mutual influence Consequently the analysis of metaphor usage in context may provide insights for cognitive modelling proposals The analysis of cognitive configuration of conceptual domains may in turn illuminate our understanding of communicative decisions in discourse The integration of multimodal metaphor analysis puts forward the idea that diverse modal manifestations of metaphor reveal the symbiosis between communicative and cognitive stances The various subject areas and methodologies illuminate the scene of current research in the field The poignant contributions open far reaching avenues into the realm of human thought and discourse Amazon Town Charles Wagley, 2014 Amazon Town A Study of Human Life in the Tropics is Charles Wagley's classic ethnography of peasant life in the Amazon with updated material by Conrad Kottak and Richard Pace **Amazon** Paul Smith, Alexander

Monea, Maillim Santiago, 2022-11-28 Amazon is everywhere In our mailboxes in delivery vans clogging our streets in an increasing portion of our air traffic in our grocery stores on our televisions in our smart home devices and in the infrastructure powering many of the websites we visit Amazon's tendrils touch the majority of online retail transactions in the United States and in many other countries As Amazon changes the face of capitalist business it is also changing global culture in multiple ways This book brings together some of the most important analyses of Amazon's pioneering business practices and how they intersect with and affect the components of everyday culture Its contributors examine the political economy of Amazon's platform making the argument that it operates as an unregulated monopoly that is disruptive to the global economy and that its infrastructure and logistical operations increasingly alienate its workers and wreak many other social harms Our contributors outline the practices of resistance that have been employed by organizers ranging from Amazon employees to artists to digital piecemeal laborers working on Amazon's Mechanical Turk platform They examine the broader cultural impact that Amazon has had looking at things like Amazon Prime and the creation of unending consumption the absorption of Whole Foods and its brand of conscious capitalism and the impact of Amazon Studios and Prime Video on everyday film and television viewing practices This book examines the broader environmental impacts that Amazon is having on the world looking at the slow violence it incurs its underwhelming Climate Pledge and the regional impacts that its business practices have Lastly this book gathers together some important artistic responses to Amazon for the first time in an appendix that offers readers insight into other ways in which critics of the company are making their voices heard and attempting to move broader audiences into solidarity against Amazon

**The Moral Metaphor System** Ning Yu, 2022-06-27 This book investigates moral metaphors in English and Chinese applying conceptual metaphor theory to a comparative study of the linguistic manifestation of the moral metaphor system rooted in the domains of bodily and physical experience Ning Yu sheds light on the metaphorical nature of moral cognition and how it is systematically manifested in language and explores the potential commonalities that define moral cognition in

general as well as the differences that characterize distinct cultures The work investigates moral cognition at the cultural level as reflected in language based on linguistic evidence from both English and Chinese and to a limited extent multimodal evidence from the corresponding cultures The moral metaphor system is taken to consist of three major subsystems referred to as physical visual and spatial These subsystems are clusters of conceptual metaphors whose source concepts are from domains of embodied experiences in the physical world and which are formulated in contrastive categories with bipolar values for the target concepts of moral and immoral The study is characterized by two keywords system and systematicity The former refers to the fact that metaphors conceptual and linguistic are connected within networks and the latter to the need for those metaphors to be studied in such networks Summary of The Bezos Blueprint by Carmine

Gallo:Communication Secrets of the World's Greatest Salesman thomas francis,2024-06-28 The Bezos Blueprint Jeff Bezos the founder of Amazon is renowned for his relentless focus on innovation and customer centricity Central to Bezos s philosophy is the concept of Day One a mindset that prioritizes maintaining the agility and dynamism of a startup even as the company grows into a global giant This idea isn t just a slogan for Bezos it s a guiding principle that informs every aspect of Amazon s culture and operations In The Bezos Blueprint Carmine Gallo delves into the communication strategies that have enabled Bezos to consistently convey this philosophy and drive Amazon s success **Scoping the Amazon** Stephen

Nugent,2016-07-01 The Amazon Indian is an icon that straddles the world between the professional anthropologist and the popular media Presented alternately as the noble primitive the savior of the environment and as a savage dissolute cannibalistic half human it is an image well worth examining Stephen Nugent does just that critiquing the claims of authoritativeness inherent in visual images presented by anthropologists of Amazon life in the early 20th century and comparing them with the images found in popular books movies and posters The book depicts the field of anthropology as its own form of culture industry and contrasts it to other similar industries past and present For visual anthropologists ethnographers Amazon specialists and popular culture researchers Nugent s book will be enlightening entertaining reading

**The Bezos Blueprint** Carmine Gallo,2022-11-15 The communication and leadership secrets of Jeff Bezos and how to master them from the bestselling author of Talk Like Ted Jeff Bezos is a dreamer who turned a bold idea into the world s most influential company a brand that likely touches your life every day As a student of leadership and communication he learned to elevate the way Amazonians write collaborate innovate pitch and present He created a scalable model that grew from a small team in a Seattle garage to one of the world s largest employers The Bezos Blueprint by Carmine Gallo reveals the communication strategies that Jeff Bezos pioneered to fuel Amazon s astonishing growth As one of the most innovative and visionary entrepreneurs of our time Bezos reimaged the way leaders write speak and motivate teams and customers The communication tools Bezos created are so effective that former Amazonians who worked directly with Bezos adopted them as blueprints to start their own companies Now these tools are available to you The Political Economy of Organ

Transplantation Hagai Boas, 2022-09-09 This thought provoking work examines how the relationships of organs tissues and cells transferred from one body to another through donation sale or gift are mediated by the state market and family The book is a thorough review of the sociological anthropological and ethical literature surrounding transplant organs but encased within the author's own personal dilemmas and lived experience His work skillfully underscores the negotiations and accommodations inherent in the use of these technologies and reveals the situatedness of decisions that belie any simplistic readings of the ethics of transplantations This is a stimulating and accessible book for those with an interest in transplantation ethics or the social implications of medical technologies Its strength lies in the reflexive accounts from the author of his own experience juxtaposed with the sensitive appraisals of the workings of the state market and family in the organ economy Andrea Whittaker Monash University reviewed for Social Forces This innovative work combines a rigorous academic analysis of the political economy of organ supply for transplantation with autobiographical narratives that illuminate the complex experience of being an organ recipient Organs for transplantations come from two sources living or post mortem organ donations These sources set different routes of movement from one body to another Postmortem organ donations are mainly sourced and allocated by state agencies while living organ donations are the result of informal relations between donor and recipient Each route traverses different social institutions determines discrete interaction between donor and recipient and is charged with moral meanings that can be competing and contrasting The political economy of organs for transplants is the gamut of these routes and their interconnections and this book suggests how such a political economy looks like what are its features and contours its negotiation of the roles of the state market and the family in procuring organs for transplantations and its ultimate moral justifications Drawing on Boas personal experiences of waiting searching and obtaining organs each autobiographical section of the book sheds light on a different aspect of the discussed political economy of organs post mortem donations parental donation and organ market and illustrates the experience of living with the fear of rejection and the intimidation of chronic shortage A Political Economy of Organ Transplantation is of interest to students and academics with an interest in bioethics sociology of health and illness medical anthropology and science and technology studies

*Critical Discourse Studies and Technology* Ian Roderick, 2016-06-16 Making a new contribution to the developing field of multimodal critical discourse studies Ian Roderick's book demonstrates how technologies that tend to be widely represented as innovative or as simple pragmatic solutions are always anchored in power relations and are therefore deeply ideological A series of examples analysing technologies such as robotics smart phones or bio medicine their functioning and uses as well as their representations in the media show that these are embedded within discourses that tell us about social and power relations identities and political values The book takes a tour of everyday technologies and how they are represented in different settings A Disney theme park attraction showing how technology has improved family life makes many assumptions about what is natural in terms of interpersonal relations pleasure and satisfaction Advertisements

that represent robot workers inform us about the kinds of worker management relations now characterising work places Roderick looks at the way that technologies while often represented as divorced from their production and maintenance as objects of wonder need to be seen within a fabric of social relations that tends to be suppressed from how we see them as part of a wider technological fetishism Engaging with existing theories of technology the book argues that we must take a more interdisciplinary approach to avoid the pitfalls of social constructivism and technological determinism Our experiences of technologies are shaped through the relationship between knowledge practices and institutional forms *Summary of Carmine Gallo's The Bezos Blueprint* Milkyway Media,2024-03-27 Get the Summary of Carmine Gallo's The Bezos Blueprint in 20 minutes Please note This is a summary not the original book The Bezos Blueprint delves into the communication strategies that propelled Amazon's success focusing on Jeff Bezos's ban on PowerPoint in favor of written narratives The book explores Bezos's writing skills particularly in his shareholder letters and how his communication methods have influenced leaders and entrepreneurs *Amazon Town TV* Richard Pace,Brian P. Hinote,2013-05-15 In 1983 anthropologist Richard Pace began his fieldwork in the Amazonian community of Gurup one year after the first few television sets arrived On a nightly basis as the community's electricity was turned on he observed crowds of people lining up outside open windows or doors of the few homes possessing TV sets intent on catching a glimpse of this fascinating novelty Stoic mute and completely absorbed they stood for hours contemplating every message and image presented So begins the cultural turning point that is the basis of *Amazon Town TV* a rich analysis of Gurup in the decades during and following the spread of television Pace worked with sociologist Brian Hinote to explore the sociocultural implications of television's introduction in this community long isolated by geographic and communication barriers They explore how viewers change their daily routines to watch the medium how viewers accept miss ignore negotiate and resist media messages and how television's influence works within the local cultural context to modify social identities consumption patterns and worldviews **Doing Semiotics** Laura R. Oswald,2020 Using applied semiotics this book shows readers how to leverage the cultural codes that structure communication and sociality endow things with value and help us navigate social space and cultural change to solve business problems foster innovation and create meaningful experiences for consumers **Theses on the Metaphors of Digital-Textual History** Martin Paul Eve,2024-07-16 Digital spaces are saturated with metaphor we have pages sites mice and windows Yet in the world of digital textuality these metaphors no longer function as we might expect Martin Paul Eve calls attention to the digital textual metaphors that condition our experience of digital space and traces their history as they interact with physical cultures Eve posits that digital textual metaphors move through three life phases Initially they are descriptive Then they encounter a moment of fracture or rupture Finally they go on to have a prescriptive life of their own that conditions future possibilities for our text environments even when the metaphors have become untethered from their original intent Why is whitespace white Was the digital page always a foregone conclusion Over a series of theses Eve

addresses these and other questions in order to understand the moments when digital textual metaphors break and to show us how it is that our textual softwares become locked into paradigms that no longer make sense Contributing to book history literary studies new media studies and material textual studies Theses on the Metaphors of Digital Textual History provides generative insights into the metaphors that define our digital worlds *Metaphors and Analogies in Sciences and Humanities* Shyam Wuppuluri,A. C. Grayling,2022-05-30 In this highly interdisciplinary volume we systematically study the role of metaphors and analogies in mis shaping our understanding of the world Metaphors and Analogies occupy a prominent place in scientific discourses as they do in literature humanities and at the very level of our thinking itself But when misused they can lead us astray blinding our understanding inexorably How can metaphors aid us in our understanding of the world What role do they play in our scientific discourses and in humanities How do they help us understand and skillfully deal with our complex socio political scenarios Where is the dividing line between their use and abuse Join us as we explore some of these questions in this volume **Jews of the Amazon** Ariel Segal Freilich,1999 A fascinating study of a Jewish community in one of the world s most isolated places the heart of the Peruvian Amazon User Interface Design and Evaluation Debbie Stone,Caroline Jarrett,Mark Woodroffe,Shailey Minocha,2005-04-29 User Interface Design and Evaluation provides an overview of the user centered design field It illustrates the benefits of a user centered approach to the design of software computer systems and websites The book provides clear and practical discussions of requirements gathering developing interaction design from user requirements and user interface evaluation The book s coverage includes established HCI topics for example visibility affordance feedback metaphors mental models and the like combined with practical guidelines for contemporary designs and current trends which makes for a winning combination It provides a clear presentation of ideas illustrations of concepts using real world applications This book will help readers develop all the skills necessary for iterative user centered design and provides a firm foundation for user interface design and evaluation on which to build It is ideal for seasoned professionals in user interface design and usability engineering looking for new tools with which to expand their knowledge new people who enter the HCI field with no prior educational experience and software developers web application developers and information appliance designers who need to know more about interaction design and evaluation Co published by the Open University UK Covers the design of graphical user interfaces web sites and interfaces for embedded systems Full color production with activities projects hundreds of illustrations and industrial applications **Metaphor II** ,1990-01-01 Metaphor though not now the scholarly mania it once was remains a topic of great interest in many disciplines albeit with interesting shifts in emphasis Warren Shibles Metaphor An Annotated Bibliography and History Bloomington Ind 1971 recorded the initial interest Then Metaphor A Bibliography of Post 1970 Publications published by John Benjamins continued the record through the mania years up to 1985 when writings proliferated as metaphor was seen to be a fundamental category in human thought and language Five years later there is a need for a report on the newest thinking

and tendencies in the field This need is fulfilled by Metaphor II which offers a comprehensive view of information which would otherwise remain scattered throughout a numbing plethora of resources including many sometimes hard to find publications from Eastern Europe Metaphor II systematically collects references of books articles and papers published between 1985 and May 1990 and includes for completeness corrections and additions to the earlier bibliographies Abstracts are given for many of the titles while four indices disciplines semantic fields metaphor theory and names multiply the number of access points to the information
