

Instructions for Setting-up and Operating Model E 49 400 - Day Anniversary Clock

Please read and follow these instructions step by step in setting up your clock to insure proper functioning and long lasting enjoyment.

Carefully remove all packing material from clock. The carton and packaging should be saved for future use.

Your clock should be placed on a firm level surface away from home traffic patterns to be as free from vibrations as possible. (Avoid placing on TV or piano.)

WINDING: Your clock has been partially prewound at the factory and should not need winding for about six months. When it is time for rewinding, use crank key (1), turn winding shaft (2) at rear of clock, slowly, in a counter clockwise direction until resistance is felt. There is a stop device to indicate that the clock is fully wound. (about 35 turns if completely rundown). Store key in a safe place for future use.

For winding please lift glass dome off base.
