The Concise Dictionary of Pastoral Care and Counseling Glenn H. Asquith JR., 2010-09-01 The Concise Dictionary of Pastoral Care and Counseling is a condensed version of the Dictionary of Pastoral Care and Counseling first published in 1990 with new and updated articles This book provides classic and key

articles that explain current theories trends and practices in the field of Pastoral Care and Counseling Contents include Definitions History and Biography Issues of Power and Difference Interfaith Issues and Methods Clinical Method and Pastoral Theological Method Unlocking the Emotional Brain Bruce Ecker,Robin Ticic,Laurel Hulley,2022-03-23 In Unlocking the Emotional Brain authors Ecker Ticic and Hulley equip readers to carry out focused empathic therapy using the potent process of memory reconsolidation the recently discovered and only known process for actually unlocking emotional memory at the synaptic level The Routledge classic edition includes a new preface from the authors describing the book s widespread impact on psychotherapy since its initial publication Emotional memory s tenacity is the familiar bane of therapists and researchers had long believed that emotional memory forms indelible learning Reconsolidation has overturned these views It allows new learning to truly nullify not just suppress the deep intensely problematic emotional learnings that form outside of awareness during childhood or in later tribulations and generate most of the symptoms that bring people to therapy Readers will learn methods that precisely eliminate unwanted ingrained emotional responses whether moods behaviors or thought patterns causing no loss of ordinary narrative memory while restoring clients well being Numerous case examples show the versatile use of this process in AEDP coherence therapy EFT EMDR and IPNB The Haunted Self: Structural Dissociation and the Treatment of Chronic Traumatization (Norton Series on Interpersonal Neurobiology) Onno van der Hart,Ellert R. S. Nijenhuis,Kathy Steele,2006-11-17 Life is an ongoing struggle for patients who have been chronically traumatized They typically have a wide array of symptoms often classified under different combinations of comorbidity which can make assessment and treatment complicated and confusing for the therapist Many patients have substantial problems with daily living and relationships including serious intrapsychic conflicts and maladaptive coping strategies Their suffering essentially relates to a terrifying and painful past that haunts them Even when survivors attempt to hide their distress beneath a facade of normality a common strategy therapists often feel besieged by their many symptoms and serious pain Small wonder that many survivors of chronic traumatization have seen several therapists with little if any gains and that quite a few have been labeled as untreatable or resistant In this book three leading researchers and clinicians share what they have learned from treating and studying chronically traumatized individuals across more than 65 years of collective experience Based on the theory of structural dissociation of the personality in combination with a Janetian psychology of action the authors have developed a model of phase oriented treatment that focuses on the identification and treatment of structural dissociation and related maladaptive mental and behavioral actions The foundation of this approach is to support patients in learning more effective mental and behavioral actions that will enable them to become more adaptive in life and to resolve their structural dissociation This principle implies an overall therapeutic goal of raising the integrative capacity in order to cope with the demands of daily life and deal with the haunting remnants of the past with the unfinished business of traumatic memories Of interest to clinicians students of clinical psychology and psychiatry as well as to researchers all those interested in adult

survivors of chronic child abuse and neglect will find helpful insights and tools that may make the treatment more effective and efficient and more tolerable for the suffering patient

Science and Pseudoscience in Clinical Psychology Scott O. Lilienfeld, Steven Jay Lynn, Jeffrey M. Lohr, 2014-10-17 This valued resource helps practitioners and students evaluate the merits of popular yet controversial practices in clinical psychology and allied fields and base treatment decisions on the best available research Leading authorities review widely used therapies for a range of child adolescent and adult disorders differentiating between those that can stand up to the rigors of science and those that cannot Questionable assessment and diagnostic techniques and self help models are also examined The volume provides essential skills for thinking critically as a practitioner evaluating the validity of scientific claims and steering clear of treatments that are ineffective or even harmful New to This Edition Reflects the significant growth of evidence based practices in the last decade Updated throughout with the latest treatment research Chapter on attachment therapy Chapter on controversial interventions for child and adolescent antisocial behavior Addresses changes in DSM 5

Haunted Self Onno van der Hart, Ellert R Nijenhuis, K Steele, 2006-10-17 Life is an ongoing struggle for patients who have been chronically traumatized They typically have a wide array of symptoms often classified under different combinations of comorbidity which can make assessment and treatment complicated and confusing for the therapist Many patients have substantial problems with daily living and relationships including serious intrapsychic conflicts and maladaptive coping strategies Their suffering essentially relates to a terrifying and painful past that haunts them Even when survivors attempt to hide their distress beneath a facade of normality a common strategy therapists often feel besieged by their many symptoms and serious pain Small wonder that many survivors of chronic traumatization have seen several therapists with little if any gains and that quite a few have been labeled as untreatable or resistant In this book three leading researchers and clinicians share what they have learned from treating and studying chronically traumatized individuals across more than 65 years of collective experience Based on the theory of structural dissociation of the personality in combination with a Janetian psychology of action the authors have developed a model of phase oriented treatment that focuses on the identification and treatment of structural dissociation and related maladaptive mental and behavioral actions The foundation of this approach is to support patients in learning more effective mental and behavioral actions that will enable them to become more adaptive in life and to resolve their structural dissociation This principle implies an overall therapeutic goal of raising the integrative capacity in order to cope with the demands of daily life and deal with the haunting remnants of the past with the unfinished business of traumatic memories Of interest to clinicians students of clinical psychology and psychiatry as well as to researchers all those interested in adult survivors of chronic child abuse and neglect will find helpful insights and tools that may make the treatment more effective and efficient and more tolerable for the suffering patient

Inviting the Spirit of Play to Transform Trauma Monica C. Blum, 2025-09-17 This unique and accessible book unites leading edge trauma approaches with the power of playful practice

to treat traumatized clients of all ages Abundant case examples and exercises show new and established therapists how to relationally engage a playful mindset not play therapy to accelerate trauma healing and transformation The book grows up the wisdom embedded in child based playfulness and grows down complex adult focused trauma theory Readers will discover how to playfully integrate scientifically supported healing principles of Polyvagal Theory Interpersonal Neurobiology Coherence Therapy Accelerated Experiential Dynamic Psychotherapy Sensorimotor Psychotherapy and Internal Family Systems along with broaden and build theory affective neuroscience structural dissociation mindfulness spirituality and more Most importantly this book will empower therapists working at the heart of trauma treatment to compassionately hold space for the depth of trauma s painful isolating effects while embodying play s life affirming joyful and transformational qualities to make trauma healing more fun creative engaging and effective **Intervention in Mental Health-Substance Use**

David B. Cooper,2016-09-19 The Mental Health Substance Use series provides clear guidance for professionals on this complex and increasingly recognised field It concentrates on the concerns dilemmas and concepts that impact on the life and well being of affected individuals and those close to them and the future direction of practice education research services intervention and treatment Mental health substance use is a complex and varied phenomenon and this volume stresses an appreciation that interventions that work for one individual or family may prove ineffective for another It therefore explores the needs of individuals and carers the nature of the therapeutic relationship and the theory and application of a variety of interventional techniques these include group therapy cognitive behaviour therapy CBT motivational interviewing MI brief interventions and many more The volumes in this series are designed to challenge concepts and stimulate debate exploring all aspects of the development in treatment intervention and care response and the adoption of research led best practice They are essential reading for mental health and substance use professionals students and educators *The SAGE*
