Karl von Wogau

European Defence Breaking New Ground:

European Defence Jean-François Morel, Alastair Cameron, 2009-10-01 Since 1999 Europeans have successfully launched and developed a European Security and Defence Policy What is the core of the European defence project and is there a roadmap according to which it is developing in order to tackle current security challenges What are the main drivers that lead the Europeans to act together and how effective are they in the field of international security A French naval officer and a Franco-British defence analyst jointly set about identifying problems between the main players and the avenues to explore in terms of European Defence European Defence - Breaking New Ground, 2013 **The Path to European**

Defence Karl von Wogau, 2004 After the Internal Market and the introduction of the Euro the European Union is making the decisive steps towards the next large project on the way to European unification which is European Defence The recent Iraqi crisis has shown that a common European foreign policy is more necessary than ever In spite of this shortfall there has been important progress The European crisis intervention force such as it was defined in Helsinki in 1999 has already been deployed successfully in two operations Still creating a European Defence is an ongoing process where Europe has to continue to improve its capabilities The direction that the European Union will have to take in the coming years is indicated by the European Convention which has proposed to create a European Minister of Foreign Affairs and a European Armaments Research and Military Capabilities Agency Within the European Parliament there is a large majority for the necessity of a European Defence This is demonstrated by the contributions of representatives of the four major political groups in this book It also corresponds with the preferences of public opinion The draft of a European Security Strategy presented by Javier Solana in June 2003 is a good step towards a European Foreign and Security Policy which will be able to guarantee the security of the European citizens and to defend the interests of the European Union in the world High ranking European personalities such as Javier Solana Guy Verhofstadt Erkki Liikanen and Philippe Busquin have made valuable contributions to this book The authors set out to identify where we stand on defence and what remains to be done to help Europe evolve in the changing global context of the 21st century **The Handbook of European Defence Policies and**

Armed Forces Hugo Meijer, Marco Wyss, 2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross-European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty-one contributions on European defence and international security from around the world The six parts focus on country-based assessments of the evolution of the national defence policies of Europe's major medium and

lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe

The EU-NATO Relationship Martin Reichard, 2016-02-17 The EU NATO relationship continues to develop at a time of significant change for both organizations Post 9 11 NATO embarked on a fundamental transformation recasting itself as an organization with global strategic reach and interest focused less on Europe than ever before At the same time the EU is also becoming a more global political actor Consequently there is growing evidence that over time the EU will take the primary place in providing military security in Europe This volume combines political and legal methods to provide a comprehensive analysis of the current and likely future relationship between the EU and NATO The work will be of interest to all those interested in the development of these two major organizations and international security more generally whether from a political or legal perspective

European defence in the wake of the Lisbon treaty (Egmont Paper 21) Bruno Angelet, 2008

Europe as a Stronger Global Actor Simon Duke, 2016-11-10 This book considers the principal challenges facing the European Union which has been buffeted by a series of profound crises both internal and external These range from the future of Ukraine the Union's reactions to China's One Belt One Road initiative how to help stabilize countries to its south and relations with the United States The core argument is that the EU lacks a meta narrative that could indicate priorities and linkages between the various continental regional national and thematic strategies As a result the EU often appears to be a confusing and even contradictory actor to many international partners In response to these challenges the EU needs to develop a deeper sense of strategic awareness and confidence so that it may give a more convincing response to fundamental questions about the Union's role purpose and identity in a changing world

Fear and Uncertainty in Europe Roberto Belloni, Vincent Della Sala, Paul Viotti, 2018-08-02 Russia's intervention in the Ukraine Donald Trump's presidency and instability in the Middle East are just a few of the factors that have brought an end to the immediate post Cold War belief that a new international order was emerging one where fear and uncertainty gave way to a thick normative and institutional architecture that diminished the importance of material power This has raised questions about the instruments we use to understand order in Europe and in international relations The chapters in this book aim to assess whether foreign policy actors in Europe understand the international system and behave as realists They ask what drives their behaviour how they construct material capabilities and to what extent they see material power as the means to ensure survival They contribute to a critical assessment of

realism as a way to understand both Europe's current predicament and the contemporary international system **The**
Emerging Constitutional Law of the European Union Adam Bodnar, Michal Kowalski, Karen Raible, Frank
