**GENDER AND DECENTRALIZATION** Simi Afonja & Monica Alaghile, GENDER DECENTRALISATION Gender and Decentralization in Nigeria is a product of two years research sponsored by the Gender Unit of the International Development Research Centre IDRC Canada as part of its Gender and Decentralization Program for sub Saharan Africa The overall objective of the program was to document and analyze specific state decentralization reforms that have worked to promote women s rights and or reforms that have created barriers to the protection and realization of these rights At the core of the Nigerian project were women s representation and political effectiveness in local administration The issues transcended the usual structural analysis of the political administrative and fiscal changes associated with decentralization and a breakdown by gender Given the centrality of equity and accountability issues in current good governance debates a

feminist perspective on voice and action was inserted into the traditional public administration perspective Going beyond numbers description of gender inequitable electioneering processes poor accountability of the state of political parties and the women s constituency the book also focusses on feminist political activism at the grassroots level The authors also document the potential impact of re politicizing civil society and restructuring of gender ideologies to achieve self determination and increase women representation and political effectiveness Hearings United States. Ayscue,2024-08-01 Since the peak of school desegregation in the late 1980s schools across the nation have been resegregating such that schools are now as segregated as they were during the late 1960s Segregation is systematically linked to unequal educational opportunities and outcomes while integration when well structured is associated with numerous short term and long term academic and social benefits for individuals and society In a time when public education is under attack and our nation is deeply divided along the lines of race class and politics the potential of integration to create more equitable educational opportunities and outcomes for individual students as well as greater social cohesion for our democratic pluralistic society is more important than ever Seventy years after the Supreme Court s landmark Brown v Board of Education decision ruled that segregated schools are inherently unequal this book reimagines what integration is and could be in our nation s current context of racial and political polarization the expansion of unregulated choice in public education and an increasingly diverse multiracial public school enrollment Through an exploration of research and policy this book develops a new conceptualization of integration by describing the contemporary drivers of segregation and recommending strategies to create a more equitable meaningful equal status form of educational integration for the future This book is a valuable resource for policymakers scholars educators and concerned citizens who are invested in learning about one way to help create a more equitable and just education system **Official Gazette of the United States Patent Office** United States.
