#### Civilization and its Discontent - Sigmund Freud

##### **Introduction**

- Has to do with his Instincts and Drive theory
  - o *Beyond The Pleasure Principle* (pamphlet) – new way of looking at theory
- Till then his theory was based on Love, Eros, sexuality and Self Preservation
  - o Love and hunger make the world go round – eros and self preservation
    - Self preservation is self love – called narcissism
    - Love can flow outwards to others or can be brought in again
- Another set of drives – Death Drive/ Instinct – the opposite of Eros
  - o Eros brings people together, death instinct tear everything apart – force of destruction where all living matter decomposed into organic parts
  - o These forces in us = basic drives – are everywhere in the universe
- *The Future and the Illusion* (pamphlet)
  - o Based on religion
  - o Civilization (everything that distinguishes us from our animal cousins – believe in evolution and Darwin) was supposed to bring us happiness and advances, but causes us unhappiness – **can't act on impulses**

##### **Chapter 1**

- Talks about great individuals (philosophers, poets, religious figures, etc.)
- On author – Roland Roman (friend of Freud)
  - o Being one with the external world as a whole
- Freud – religion stems from our helplessness which is experienced in 2 different stages in our life
  - o 1. Infants – terrified of noises, visuals, unfamiliar things – look to our parents to subside anxieties
  - o 2. Adults – continue to experience these anxieties through
    - i. Nature outside of us (earthquakes, epidemics...)
    - ii. Nature inside us (bodies become weaker)
    - iii. Fellow human beings (not always treated nicely)
  - o Adults create god to take place of parents and take away anxieties
- Freud raises question of whether it is being correctly interpreted and whether it ought to be regarded as the *fons et origo* of the whole need for religion
  - o Where does this common feeling come from
- Towards the outside, ego maintains clear lines of demarcation (I know what's me and I know what's not)
  - o There is one state, an unusual state, in which it does not do this – being in love
  - o Declaring love - "I" and "you" = one, prepared to behave as if it were fact
- There are cases in which parts of a persons own body, perceptions, thoughts and feelings seem alien to him and as not belonging to his ego
  - o Other cases in which he ascribes to the external world things that clearly originate in his own ego

van Belzen, 2009-06-18 The psychoanalytic approach to religion has changed radically during the course of the twentieth century In both clinical and theoretical work in psychoanalysis developments have taken place that frequently are not noted by persons who assume that all that can be said has been said by Freud The study of religious phenomena persons events and traditions has always been a substantial part of applied psychoanalysis and here also major developments have taken place It is no exaggeration to state that the scientific study of religion has been revolutionized by the integration of psychological perspectives including the field of psychoanalysis This volume differs from other recent publications on the topic of psychoanalysis and religion in drawing upon the entire field of psychoanalytic involvement with religion It is interdisciplinary in approach and unlike other books on the topic brings together an exceptional combination of theoretical empirical and clinical studies No other book provides integrated examples of all three types of work      **SCM Studyguide:**
