From Class To Race Essays In White Marxism And:

From Class to Race Charles Wade Mills, 2003 In *From Class to Race* Charles Mills maps the theoretical route that brought him to the innovative conceptual framework outlined in his academic bestseller *The Racial Contract* 1997 Mills argues for a new critical theory that develops the insights of the black radical political tradition While challenging conventional interpretations of key Marxist concepts and claims the author contends that Marxism has been white insofar as it has failed to recognize the centrality of race and white supremacy to the making of the modern world By appealing to both mainstream liberal values and the structuralism traditionally associated with the left Mills asserts that critical race theory can radicalize the mainstream Enlightenment and develop a new kind of contractarianism that deals frontally with race and other forms of social oppression rather than evading them

Blackness Visible Charles W. Mills, 2015-11-20 Charles Mills makes visible in the world of mainstream philosophy some of the crucial issues of the black experience Ralph Ellison's metaphor of black invisibility has special relevance to philosophy whose demographic and conceptual whiteness has long been a source of wonder and complaint to racial minorities Mills points out the absence of any philosophical narrative theorizing and detailing race's centrality to the recent history of the West such as feminists have articulated for gender domination European expansionism in its various forms Mills contends generates a social ontology of race that warrants philosophical attention Through expropriation settlement slavery and colonialism race comes into existence as simultaneously real and unreal ontological without being biological metaphysical without being physical existential without being essential shaping one's being without being in one's shape His essays explore the contrasting sums of a white and black modernity examine standpoint epistemology and the metaphysics of racial identity look at black Jewish relations and racial conspiracy theories map the workings of a white supremacist polity and the contours of a racist moral consciousness and analyze the presuppositions of Frederick Douglass's famous July 4 prognosis for black political inclusion Collectively they demonstrate what exciting new philosophical terrain can be opened up once the color line in western philosophy is made visible and addressed

Unfreedom for All Thomas J. Donahue-Ochoa, 2019-08-19 It is often said that we live under systems of injustice But if so who ought to combat them and why Many in the world's liberal elite hold that only the perpetrators or the victims have such duties because of their special connections to the injustice Others hold that all of the

privileged have them because they have duties to relieve suffering or to redress their complicity in the injustice This book challenges those answers It argues that everyone living under such injustices ought to combat them victim perpetrator and bystander alike Moreover they all have the same reason for doing so such injustices suppress everyone's resistance to their workings But there is a name for such suppression authoritarianism Hence such injustices make everyone unfree because they subject everyone to authoritarian tactics The book thus reinterprets and defends a core doctrine of the global left No one is free while others are oppressed For it shows how oppression subjects everyone including you to arbitrary power The book argues that systematic injustice occurs when one group finds that its political voice is unjustly marginalized its members exploited and subject to systematic violence and that society's dominant norms unjustly favor a privileged group It diagnoses three global injustices of this kind gender race and poverty It then shows how such injustices always suppress everyone's resistance to them making everyone unfree But if so it argues then this shared unfreedom should be the ground on which victims bystanders and perpetrators unite in solidarity against injustice

Race, Ethnicity and Social Theory John Solomos, 2022-07-01 *Race Ethnicity and Social Theory* provides a critical analysis of the main areas of scholarly research and debate about racial and ethnic relations over the past few decades The book covers substantive areas of scholarly debate in this fast changing field including race and social relations identities and the construction of the racial other feminism and race the relationship between race and nationalism antisemitism the evolution of new forms of racism race and political representation and more generally the changing debates about race and ethnicity in our global environment The book argues that there is a need for more dialogue across national and conceptual boundaries about how to

develop the theoretical tools needed to understand both the historical roots of contemporary forms of racialised social and political relations and the contemporary forms through which race is made and re made A key argument that runs through the book is the need to develop conceptual frameworks that can help us to make sense of the changing forms of racial and ethnic relations in contemporary societies This means developing more dialogue across national research cultures as well as empirical research that seeks to engage with the key issues raised by contemporary theoretical debates The book will be of interest to both students wanting to develop a deeper understanding of this area of scholarship and to researchers of race ethnicity and migration working in various national and disciplinary environments

Neoliberalism and Race Lars Cornelissen, 2025-10-14 Lars Cornelissen argues that the category of race constitutes an organizing principle of neoliberal ideology Using the methods of intellectual history and drawing on insights from critical race studies Cornelissen explores the various racial constructs that structure neoliberal ideology some of which are explicit while others are more coded Beginning in the interwar period and running through to recent developments *Neoliberalism and Race* shows that racial themes have always pervaded neoliberal

thinking The book's key argument is that neoliberal thought is constitutively racialized its racial motifs cannot be extracted from neoliberalism without rendering it theoretically and politically incoherent The book aptly explores a wide variety of racial constructs through the structure of neoliberal ideology deconstructing the conceptualizations in the works of landmark thinkers such as Ludwig von Mises Friedrich Hayek Peter Bauer Thomas Sowell Charles Murray and others from the early twentieth century to the present In this original perhaps controversial critique Cornelissen asserts that neoliberal thinkers were not just the passive recipients of racial discourse but also directly impacted it *Du Bois's Dialectics* Reiland Rabaka, 2009-07-15 Du Bois's *Dialectics* is doubly distinguished from other books on Du Bois because it is the first extended exploration of Du Bois's contributions to new critical theory and the first book length treatment of his contributions to contemporary black radical politics and the developing discipline of Africana Studies With chapters that undertake ideological critiques of education religion the politics of reparations and the problematics of black radical politics in contemporary culture and society Du Bois's *Dialectics* employs Du Bois as its critical theoretical point of departure and demonstrates his and Africana Studies contributions to as well as contemporary critical theory's connections to critical pedagogy sociology of religion and reparations theory Rabaka offers the first critical theoretical treatment of the W E B Du Bois Booker T Washington debate which lucidly highlights Du Bois's transition from a bourgeois black liberal to a black radical and revolutionary democratic socialist This book is primarily directed at scholars advanced undergraduate and graduate students working in and associated with Africana Studies American Studies Ethnic Studies and Cultural Studies

Black Rights/White Wrongs Charles W. Mills, 2017-03-01 Liberalism is the political philosophy of equal persons yet liberalism has refused equality to those it saw as sub persons Liberalism is the creed of fairness yet liberalism has been complicit with European imperialism and African slavery Liberalism is the classic ideology of Enlightenment and political transparency yet liberalism has cast a dark veil over its actual racist past and present In sum liberalism's promise of equal rights has historically been denied to blacks and other people of color In Black Rights White Wrongs The Critique of Racial Liberalism political philosopher Charles Mills challenges mainstream accounts that ignore this history and its current legacy in self-conceived liberal polities today Mills argues that rather than bracket as an anomaly the role of racism in the development of liberal theory we should see it as shaping that theory in fundamental ways As feminists have urged us to see the dominant form of liberalism as a patriarchal liberalism so too Mills suggests we should see it as a

racialized liberalism It is unsurprising then if contemporary liberalism has yet to deliver on the recognition of black rights and the correction of white wrongs These essays look at racial liberalism past and present white ignorance as a guilty ignoring of social reality that facilitates white racial domination Immanuel Kant's role as the most important liberal theorist of both personhood and sub personhood the centrality of racial exploitation in the United States and the evasion of white supremacy in John Rawls's ideal theory framing of social justice and in the work of most other contemporary white political philosophers Nonetheless Mills still believes that a deracialized liberalism is both possible and desirable He concludes by calling on progressives to Occupy liberalism and develop accordingly a radical liberalism aimed at achieving racial justice
