From Transplant to Transformation, the Journey of a Mother Who Gave the Gift of Life Twice Louise Camilleri, 2014-08-14  
ABOUT THE AUTHOR Louise's mission begins with a true interest in being of service to others and teaching people how to live to their highest potential through holistic means. This was learned through her experience of being the Living Related Donor for her child's liver transplant. With the attaining and sharing of all that she learned throughout this process, she is able to offer her clients her best in preventative healthcare practices and some of the most effective safe and natural skin and cosmetics products available to help de-stress the body. Her vision about Natural Health Care is that her clients will learn to become active participants in maintaining their health through preventative means by educating themselves on how to manage the cause of an illness or moment of disease and not necessarily by treating the symptoms alone. When it comes to Natural Wellness, she hopes that her clients will seek out the tools to assist themselves on the path of well-being mentally, physically, and spiritually before reaching for chemical substances that may have long-term side effects. With regard to Natural Beauty, her clients will learn that they do have a choice when it comes to purchasing healthy, non-toxic body skin care and cosmetics products. What goes on the skin goes into the skin, and how one feeds the skin will feed the body and ultimately affect the health, well-being, and beauty of it.
