Blits,2009-06-16 Patterned after his previous books on Shakespeare s plays Jan H Blits s New Heaven New Earth is a scene by scene line by line philosophical study of Antony and Cleopatra Combining close attention to detail with interpretive breadth Blits approaches Shakespeare as a first rank thinker who master of his own thought and writing produced plays and poetry with an infinitely conscious art like any commonly recognized philosophical poet Treating the play as a fully coherent whole Blits shows that Antony and Cleopatra as much a history play as a love story depicts the transition from the pagan to the Christian world\_ from the aftermath of the collapse of the Roman Republic and the decline of the pagan gods to the emergence of the Roman Empire and the conditions giving rise to Christianity Instead of being organized thematically New Heaven New Earth follows the play from beginning to end closely examining Shakespeare s text on its own terms and not on the terms of modern literary theory Using this approach Blits draws significant and insightful conclusions that will satisfy the interests of scholars of politics literature and history alike **Conservatism, Past and Present** Tristan J. Rogers,2025-01-31 In Conservatism Past and Present A Philosophical Introduction Tristan J Rogers argues that philosophical conservatism is a coherent and compelling set of historically rooted ideas about conserving and promoting the human good Part I Conservatism Past presents a history of conservative ideas exploring themes such as the search for wisdom the limits of philosophy reform in preference to revolution the relationship between authority and freedom and liberty as a living tradition Major figures include Aristotle Saint Thomas Aquinas Edmund Burke G W F Hegel and Roger Scruton Part II Conservatism Present applies philosophical conservatism to contemporary conservative politics focusing on issues such as nationalism populism the family education and responsibility Rogers shows that conservatism has been defined differently at different times as a loose set of connected ideas reacting against the French Revolution as a kind of disposition or instinct in favor of the status quo and more recently as any ideas opposed to the political left But he also allows a set of questions to guide his argument for conservatism s merits What is conservatism Is it a coherent and attractive philosophy What are conservatives for And how is today s conservatism related to its past In his answers Rogers paints a compelling and coherent picture of an aligned and attractive set of ideas Augustine and History Christopher T. Daly,John Doody,Kim Paffenroth,2008-01-01 Augustine and History places Augustine in his historical context and traces his influence on later historians and debates These scholarly essays are excellent for a wide ranging academic audience *The Works of the Poets of Great Britain and Ireland; with Prefaces Biographical and Critical, Etc* Samuel Johnson,1800 The Works of the Poets of
