Paying the Professoriate Philip G. Altbach, 2012 How are professors paid Can thebest and brightest be attracted to the academic profession With universities facing international competition which countries compensate their academics best and which ones lag behind Paying the Professoriate examines these guestions and provides key insights and recommendations into the current state of the academic profession worldwide Paying the Professoriate is the first comparative analysis of global faculty salaries remuneration and terms of employment Offering an in depth international comparison of academic salaries intwenty eight countries across public private research and non research universities chapter authors shed light on the conditions and expectations that shape the modern academic profession. The top researchers on the academic profession worldwide analyze common themes trends and the impact of these matters on academic quality and research productivity In a world where higher education capacity is a key driver of national innovation and prosperity and nations seek to fast track their economic growth through expansion of higher education systems policy makers and administrators increasingly seek answers about what actions they should be taking Paying the Professoriate provides a much needed resource illuminating the key issues and offering recommendations Head's Broadcasting in America Michael McGregor, Paul D. Driscoll, Walter Mcdowell,2016-01-08 This book documents the dramatic changes in the field of electronic media in the past decade and provides informed insights in the exciting and changes yet to come It examines the transition in broadcasting from analog to digital transmission and the changing business models of electronic media Corporatizing American Health Care Robert W. Derlet, 2021-02-02 Tracking the evolution of medical care from an individualized small cottage profession to a giant impersonal corporate industry costing Americans over 3 trillion each year Over the past three decades the once efficient American health care system has evolved into a complex maze of monopolies and a racket of bureaucratic checks approvals denials roadblocks and detours This shift has created a massive and at times redundant workforce that frustrates patients as well as physicians nurses and administrative staff Health care costs the United States over 3 trillion each year and consumes over 18% of the country's gross domestic product That's more than 11 000 for each person in the country each year more than double what it costs in most Western European countries to deliver equal or even better care In Corporatizing American Health Care Robert W Derlet MD traces the progression of health care policy in the United States How he asks has US health care transformed from bedside medicine a model of small practices and patient focused care into corporate medicine which prioritizes profit and deals with both patient care and outcomes as billing codes Arguing that the US Congress is the root of the problem he describes how Congress has failed to enact legislation to prevent corporate monopolies in the health care

industry Instead corrupted by large campaign donations and corporate lobbyists Congress has crafted loopholes benefiting corporations and harming people Drawing on his decades as a practicing physician caring for thousands of patients as well as his university and medical school teaching experience Derlet follows changes to both policy and practice across many sectors of health care Scrutinizing how hospitals work he also takes a hard look at high prescription drug prices unresponsive insurance companies problems with the Affordable Care Act the growing medical implant device industry and even nursing homes Finally he explains why the dominance of corporations and their lobbyists over health policy means that we now pay more for our care and our medications but have less choice both in what doctors we see and in what drugs we take Breaking down the complex ABCs of health care to reveal the unscrupulous practices of the health care industry Corporatizing American Health Care is perfect for both students and general readers who want to understand the changes in our system from the perspective of an actual doctor New York Magazine ,1996-09-23 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Report of the Commissioners for Africanisation** Uganda. Health Care Off the Books Danielle T. Raudenbush,2020-02-11 Millions of low income African Americans in the United States lack access to health care How do they treat their health care problems In Health Care Off the Books Danielle T Raudenbush provides an answer that challenges public perceptions and prior scholarly work Informed by three and a half years of fieldwork in a public housing development Raudenbush shows how residents who face obstacles to health care gain access to pharmaceutical drugs medical equipment physician reference manuals and insurance cards by mobilizing social networks that include not only their neighbors but also local physicians However membership in these social networks is not universal and some residents are forced to turn to a robust street market to obtain medicine For others health problems simply go untreated Raudenbush reconceptualizes U S health care as a formal informal hybrid system and explains why many residents who do have access to health services also turn to informal strategies to treat their health problems While the practices described in the book may at times be beneficial to people s health they also have the potential to do serious harm By understanding this hybrid system we can evaluate its effects and gain new insight into the sources of social and racial disparities in health outcomes Off The Top Of Fred's Head Fred Lavner, 2015-03-05 Boomerist Fred Lavner is a funny guy with a lot to say about almost everything People that piss him off Bad customer service Outrageous rules and regulations Food labeling Pretentious restaurants High costs of living and dying School teachers behaving badly Political incorrectness
