Gray, 2010-09-29 This book takes the view that ELT global coursebooks in addition to being curriculum artefacts are also highly wrought cultural artefacts which seek to make English mean in highly selective ways and it argues that the textual construction and imaging of English parallels the processes of commodity promotion more generally *Scientific American*, 1895 **Phoenix Assurance and the Development of British Insurance: Volume 2, The Era of the Insurance Giants 1870-1984** Clive Trebilcock, 1985 This is the second and final volume of the business history of one of the UK's oldest and largest insurance offices based upon probably the best archive in the business This volume covers the period from 1870 to the absorption of the Phoenix by Sun Alliance now Royal and Sun Alliance in 1984 The Phoenix papers are used to analyse the triumphs and trials not only of a single insurance venture but of an entire financial sector in a notably turbulent century Insurance is concerned with the way people drive the way they retire or buy their houses or invest or educate their children or go to war It follows that a major insurance history also throws light on many aspects of modern British social history As the great composite offices expanded to offer fire accident marine and life insurance across a single counter so they caught within their dealings an increasingly representative slice of British commercial and social life **Value-added Provisions of the 1990 Farm Bill** United States.
