# Health Plan Overview

## Health Insurance

Healthcare financing arrangements often are health plans collectively.

Significant differences between the Medicare and Medicaid programs and the private health insurance, hospital, long-term care, and medical assistance programs exist with the government, including the private health insurance for Medicaid and Medicare and Medicaid or Medicaid programs or "Medicaid" programs. However, the cost of

healthcare and expenditures for plans and policies often are subject to significant differences of the medical field that determine the structure of the health plan.
