THEORY OF CHANGE

Abstract—This study examined the effects of a 12-week, 1,000-hour teacher preparation program on the self-efficacy of preservice teachers. The program was designed to provide preservice teachers with a variety of experiences that would help them to develop a strong sense of self-efficacy. The results of the study indicated that the program had a positive effect on the self-efficacy of preservice teachers, with the greatest gains observed in the areas of teaching and classroom management. The findings of this study have implications for the design of teacher preparation programs and for the development of preservice teachers' self-efficacy.
