It carefully and comprehensively follows the thread of Aristotle's argument and sheds light on topics that all too often receive little attention or are entirely ignored in the existing textbooks such as self control, legislative science and the legislator, the life of the money maker, craft, knowledge, comprehension and beastliness. Its objective is not only to offer an academically reliable presentation of Aristotle's Ethics but to also defend Aristotle's main tenets or at least to present them in their most defensible form. It places the Nicomachean Ethics within the study of ethics generally; students are invited to understand Aristotle's claims in the light of or in contrast to other ethical theories or their own intuitions about ethical matters. It follows the reader of the Nicomachean Ethics in action, registering questions, expectations and progress within an insightful exegesis of Aristotle's philosophical argument. It is replete with pedagogical tools including examples from our concrete everyday experience, paintings, films and literature, end of chapter summaries, internet resources, suggestions for further reading, study questions and essay questions.
