focus on the new Joomla version 1.5 and all the features it provides. Seasoned author Dan Rahmel walks you through the process of creating all three types of Joomla extensions: modules, components, and plug-ins. Explains how best to use Ajax technology and shows you how to adopt design patterns and incorporate source code control. You'll examine the underlying technologies: PHP, Apache, etc., that can be tuned to offer the best system performance, and you'll explore interfacing with outside content. Lightweight Directory Access Protocol (LDAP) setup and much more. You'll even delve into the internal structure of the Joomla framework and obtain a unique behind-the-scenes education so that you can modify and extend Joomla to meet the needs of you and your customers.

What you will learn from this book:

- How each server of a Joomla system can be installed and configured for maximum performance.
- The process of creating a module from scratch.
- Ways to use Ajax to add dynamic data retrieval to Joomla.
- Techniques for using design patterns to solve common programming problems.
- How to create and retain a virtual community.
- Procedures for tuning a Joomla site for both Search Engine Optimization (SEO) and Search Engine Management (SEM).

Who this book is for: This book is for web developers, hobbyists, web designers, bloggers, corporate content creators, and support specialists who are looking to build a more robust web site.

Basic skills in the area of PHP programming are necessary. Wrox Professional guides are planned and written by working programmers to meet the real-world needs of programmers, developers, and IT professionals.
