Online Brand Communities

Francisco J. Martínez-López, Rafael Anaya, Rocio Aguilar, Sebastián Molinillo, 2015-12-11. This book presents and analyzes the concept of online brand communities, an emerging and exciting topic in marketing and eCommerce. First, it lays out the foundations, like the evolution of the Web and the so-called Social Web, its utility for users and businesses, and the evolution of the marketing mind set to adapt to the Social Web. On this basis, the book then presents a detailed analysis of online brand communities, examining the concept of virtual community with a specific focus on virtual brand communities. In this context, the book also explores recent trends related to branding and brand management. Next, it proposes a classification system for online brand communities, taking into account questions like the motivating factors for consumers to join, participate, and stay in a community. The process of value creation in communities is examined from both business and consumer perspectives. The book draws to a close with a brief presentation of the process broadly accepted for the successful development of online brand communities.

Handbook of Research on Achieving Sustainable Development Goals With Sustainable Marketing Gigauri, Iza,Palazzo, Maria,Ferri, Maria Antonella,2023-06-26 The prominent idea of sustainable

development has influenced almost all disciplines changing our understanding and behavior toward sustainability. In this respect, marketing has also been transforming from the sustainability point of view as emerging social and ecological problems caused by the exponential growth require sustainable solutions and joint efforts. Sustainable marketing intends to integrate ecological, social, and ethical concerns while creating value. Consumers, along with other stakeholders, expect that brands will contribute to work toward the sustainable development goals; therefore, companies need to redesign their marketing initiatives to create, promote, and deliver values that are in line with sustainability. The Handbook of Research on Achieving Sustainable Development Goals With Sustainable Marketing illuminates current developments in sustainable marketing and the new trends and tendencies concerning the concept in theory and practice. The book also explores the concept of sustainable marketing in today's context of the digital age, explains its boundaries and benefits, and describes the challenges and opportunities as well as the advantages and potential disadvantages of sustainable marketing and branding efforts. Covering key topics such as branding, marketing ethics, and corporate social responsibility, this premier reference source is ideal for marketers, business owners, managers, industry professionals, researchers, academicians, scholars, practitioners, instructors, and students.

Research into Design for a Connected World Amaresh Chakrabarti, 2019-01-08

This book showcases cutting-edge research papers from the 7th International Conference on Research into Design (ICoRD) 2019, the largest in India in this area, written by eminent researchers from across the world on design processes, technologies, methods, and tools and their impact on innovation for supporting design for a connected world. The theme of ICoRD 19 has been Design for a Connected World. While Design traditionally focused on developing products that worked on their own, an emerging trend is to have products with a smart layer that makes them context-aware and responsive individually and collectively through collaboration with other physical and digital objects with which these are connected. The papers in this volume explore these themes, and their key focus is connectivity: how do products and their development change in a connected world? The volume will be of interest to researchers, professionals, and entrepreneurs working in the areas of industrial design, manufacturing, consumer goods, and industrial management who are interested in the use of emerging technologies such as IOT, IIOT, Digital Twins, I4.0, etc., as well as new and emerging methods and tools to design new products, systems, and services.

Advances in Design and Digital Communication II Nuno Martins, Daniel Brandão, 2021-10-21

This book reports on research findings and practical lessons featuring advances in the areas of digital and interaction design, graphic design, and branding design, education, society, and communication in design practice and related ones. Gathering the proceedings of the 5th International Conference on Digital Design and Communication (Digicom 2021) held on November 4-6, 2021, in Barcelos, Portugal, and continuing the tradition of the previous book, it describes new design strategies and solutions to foster digital communication within and between the society, institutions, and brands. By highlighting innovative ideas and reporting on multidisciplinary projects, it offers a source of inspiration for designers of all kinds, including graphic and web

designers UI UX and social media designers and to researchers advertisers artists and brand and corporate communication managers alike
