Caught in the Act Cyril Julie, Lorna Holtman, Charles R. Smith, 2019-12-11 The research reported in Caught in the Act draws together the insights gained from a continuous professional development initiative for high school mathematics teachers teaching in low socio economic status and socially challenged environments in South Africa The chapters show the possibilities for enhancing achievement in school mathematics if a strength based approach is adopted to develop teaching with teachers and when their concerns are taken seriously The book demonstrates that the ecological relevance fitness for the context in which teachers are teaching of the goods developed and distributed by initiatives should be a major consideration to offer hope for sustainable implementation to improve school mathematics education The book is of interest to mathematics teachers school leaders mathematics curriculum advisors policy makers and researchers **Mathematical**

HC 258 - Academies and Free Schools Great Britain. Parliament. House of Commons. Education Committee,2015 The landscape of schooling in England has been transformed over the last five years Academy sponsorship has encouraged and facilitated the contribution of individuals not previously involved in education provision and laid down a challenge to maintained schools to improve or face replacement by the insurgent academy model The development of outstanding Multi Academy Trusts like Ark and Harris offers an alternative system to the one overseen by local authorities while the unified Ofsted inspection regime and published performance data generally allows fair judgment of comparative performance There is a complex relationship between attainment autonomy collaboration and accountability Current evidence does not allow the Committee to draw conclusions on whether academies in themselves are a positive force for change This is partly a matter of timing but more information is needed on the performance of individual academy chains Most academy freedoms are in fact available to all schools and Committee recommends that curriculum freedoms are also extended to maintained schools
