Slavery, Segregation, and the Second Founding of Rice University Alexander X. Byrd,W. Caleb McDaniel,2025-10-22 During the first quarter of the twenty first century more than one hundred institutions of higher education in the United States launched projects to study and share their histories concerning slavery segregation and racial injustice Slavery Segregation and the Second Founding of Rice University joins these wider efforts Authored by award winning historians Alexander X Byrd and W Caleb McDaniel the book engages questions specific to Rice s history as the last major private research university in the country to begin desegregation Although Rice did not open its doors for classes until 1912 it was connected to the history of slavery through the life of its first founder and namesake William Marsh Rice whose fortune was deeply intertwined with the enslavement of Black people Byrd and McDaniel place the history of one of the nation s most renowned universities within a longer and larger context showing that desegregation required changes to Rice so fundamental that they amounted to a second founding of the school Following the story from slavery through segregation to the second founding they highlight pivotal points of intersection between the history of Black Houston and the history of Rice University revealing the seldom acknowledged roles of Black students Black communities and HBCUs in creating change at and around Rice Their study challenges readers to consider anew who counts as a university s founder a question relevant to ongoing discussions about statues naming and the history of higher education They also reveal what higher education institutions do at their best create new knowledge and forge solutions to trenchant social problems thus providing guidance for those committed to doing the valuable work of the second founding at colleges and universities today

Failure Vicki E. Alger,2016-07-01 A comprehensive account and frank assessment of federal involvement in education is long overdue Education policy expert Vicki E Alger remedies this deficiency with her book Failure The Federal Miseducation of America s Children As its title indicates Failure makes no effort to sugar coat its findings Created in 1979 after a lobbying campaign that spanned generations the Department of Education has failed to live up to its promises Federal involvement whether related to testing funding or academic curricula has failed

to abide by the Constitution's implication that education must remain the domain only of state and local governments and private institutions. Most of all, the central government's pervasive meddling in education has failed America's school children and their parents. Education policy has long been mired in controversies often with opposing sides missing the mark. Failure helps us step back from the skirmish du jour and redirects our focus to the big picture showing us what's gone wrong over the decades and the institutional causes of these failures. It also offers a bold blueprint for returning the federal government to its constitutional role and for cultivating an educational system that meets the needs of students and parents rather than bureaucrats. Concerned citizens of every stripe will benefit from Failure's history of federal education policy, its brutally honest report card for the Department of Education, its look at education systems across the globe and its ambitious policy recommendations. Failure might even succeed in reframing the way the federal education establishment thinks about education policy.

The Arab Spring Five Years Later Hafez Ghanem, 2015-12-29. Volume 1 of *The Arab Spring Five Years Later* is based on extensive research conducted by scholars from a variety of backgrounds including many associated with the Japan International Cooperation Agency (JICA). The original research papers are gathered in volume 2 and are available for readers who wish to go even further in understanding the economic background of the Arab Spring. In addition to Hafez Ghanem, contributors include Mongi Boughzala (University of Tunis El Manar, Tunisia), Mohamed Tlili Hamdi (University of Sfax, Tunisia), Yuriko Kameyama (JICA), Hideki Matsunaga (JICA), Mayada Magdy (JICA), Yuko Morikawa (JICA), Akira Murata (JICA), Kei Sakamoto (JICA), Seiki Tanaka (JICA), Masanori Yoshikawa (JICA) and Takako Yuki (JICA).

Thinking and Acting Systemically Alan Daly, Kara Finnigan, 2016-05-19. This volume argues that districts are important as a lever for change given the limited success of school by school efforts. Policies that focus on skill development, recognize and support performance, create opportunities for collaboration, build leader capacity and create networks of knowledge sharing hold great potential for improving districts but it will require a paradigm shift in the way we view our public school system and those who work within it away from blame and toward complex systems change.
