and teacher educators **Responding to Learner Diversity and Learning Difficulties** Dennis Conrad, Stacey Blackman, 2018-10-01 Caribbean Discourse in Inclusive Education Volume II Responding to Learner Diversity and Learning Difficulties shares selected critical reflections and recommendations on the way educational communities respond to student diversity and difficulties learning. These contexts include the Caribbean, the Diaspora, and beyond. Authors explore issues and strategies for realizing and sustaining the agenda of education for all within, primarily but not limited to, the Caribbean. While the authors are aware of the ongoing debate between the terms education for all and inclusive education, we use these terms interchangeably. We hold the position that inclusive education is about commitment to removing barriers to optimum learning for all learners regardless of age, ability, ethnicity, gender, geography, race, religion, sexual orientation, or other differences. Responding to Learner Diversity and Difficulties extends the discourse to include stakeholders committed to sharing their experiences and strategies for overcoming barriers to inclusive education. This second volume presents research that examines how teachers can respond to students with disabilities and difficulties learning, teach challenging curriculum content in mathematics and literacy, build citizenship through student voice, improve teacher practice via co-teaching and critical reflection, promote inclusive practice through leadership and advocacy. It can be used as a core text or companion reader for students at the undergraduate and graduate levels, lecturers, practitioners, researchers, and policy makers.

English Language Learners and the New Standards Margaret Heritage, Aída Walqui, Robert Linquanti, 2020-01-15 In English Language Learners and the New Standards, three leading scholars present a clear vision and practical suggestions for helping teachers engage ELL students in simultaneously learning subject area content, analytical practices, and language. This process requires three important shifts in our perspective on language and language learning: from an individual activity to a socially engaged activity, from a linear process aimed at correctness and fluency to a developmental process focused on comprehension and communication, and from a separate area of instruction to an approach that embeds language development in subject area activities. In English Language Learners and the New Standards, the authors clarify the skills and knowledge teachers need to integrate content knowledge and language development. Show how teachers can integrate formative assessment in ongoing teaching and learning. Discuss key leverage points and stress points in using interim and summative assessments with ELLs. Provide classroom vignettes illustrating key practices. Finally, the authors explain the theories and research that underlie their vision and examine the role of policy in shaping pedagogy and assessment for ELL students.
