Wilson,2010-10-26 An edited and annotated collection of translated documents on the Thirty Years War providing students with accessible source material on this destructive conflict Covering all aspects of the war from a variety of contemporary perspectives it brings together an exciting range of material from treaties to literature to eyewitness accounts *European Warfare, 1494-1660* Jeremy Black,2005-07-05 The onset of the Italian Wars in 1494 subsequently seen as the onset of modern warfare provides the starting point for this impressive survey of European Warfare in early modern Europe Huge developments in the logistics of war combined with exploration and expansion meant interaction with extra European forms of military might Jeremy Black looks at technological aspects of war as well social and political developments and effects during this key period of military history This sharp and compact analysis contextualises European developments and as establishes the global significance of events in Europe *European War and Diplomacy, 1337-1815* William Young,2003-10 The history of international relations and warfare of early modern Europe has gained popularity in recent years This bibliography provides a valuable listing of books dissertations and journal articles in the English language for scholars and general readers interested in diplomatic relations and warfare from the Hundred Years War to the Napoleonic Wars **Weapons and Warfare** Spencer C. Tucker,2020-03-26 This work covers major weapons throughout human history beginning with clubs and maces through crossbows swords and gunpowder up to the hypersonic railgun lasers and robotic weapons under development today Weapons and Warfare is designed to provide students with a comprehensive and highly informative overview of weapons and their impact on the course of human history In addition to

providing basic factual information this encyclopedia will delve into the greater historical context and significance of each weapon The chronological organization by time period will enable readers to fully understand the evolution of weapons throughout history The work begins with a foreword by a top scholar and a detailed introductory essay by the editor that provides an illuminating historical overview of weapons It then offers entries on more than 650 individual weapons systems Each entry has sources for further reading The weapons are presented alphabetically within six time periods ranging from the prehistoric and ancient periods to the contemporary period Each period has its own introduction that treats the major trends occurring in that era In addition 50 sidebars offer fascinating facts on various weapons Numerous illustrations throughout the text are also included

Hafted Weapons in Medieval and Renaissance Europe John

Waldman,2005-08-01 The development treated in this volume of a variety of staff weapons in the Medieval and Renaissance periods in Europe is of importance as the repeated success of their use caused substantive political changes Their typology use and smithing techniques as well as correlations with contemporary artistic renditions are discussed in great detail Surviving specimens from museums and collections throughout the Western Hemisphere are used Conservation issues are also dealt with The book is heavily illustrated with black and white color photographs and drawings and has a foreword by Walther Karcheski Chief Curator of Arms and Armor of the Frazier Antique Arms Museum It is intended as a reference for historical scholars artists museum curators private collectors and the art market and is a timely clarification of the nature of these arms

The Age of Wars of Religion, 1000-1650 Cathal J. Nolan,2006-04-30

The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and

religious warfare also prevailed as exemplified by the Inca and Aztec empires **The Later Thirty Years War** William P. Guthrie, 2003-02-28 Continuing where the author left off in *Battles of the Thirty Years War* this companion volume details the military aspects of the final years of this important early modern conflict Whereas the earlier half of the war was dominated by a few climactic battles White Mountain Lutter Breitenfeld and Nordlingen the later period consisted of a more drawn out struggle between more evenly matched opponents The successful general had to conduct strategic campaigns in which battles sieges maneuvers and logistics would all play a part Guthrie examines broad questions of strategy leadership armaments organization logistics and war finances Battles detailed in this volume include the Swedish victories of Wittstock 2nd Breitenfeld and Jankow the French victories of Rheinfelden Rocroi Freiburg and 2nd Nordlingen as well as the anticlimactic action of Zusmarhausen Guthrie emphasizes the unique aspects of the Thirty Years War its place in the evolution of warfare and weapons and the adjustment of the actual waging of war to the rise of the nascent linear system Based on research previously unavailable in English each campaign is recreated in detail including orders of battle tactics and maps Encyclopedia of Military Technology and Innovation Stephen Bull, 2004-06-30 From the Abrams M1 tank to the zeppelin this essential reference details the invention and evolution of nearly 600 of the most important advances in military technology from prehistory to the present International in scope it covers weapons ammunition defenses land vehicles aircraft ships detection stealth gear supplies weapons of mass destruction and much more Whether researching such cutting edge technologies as the B 2 Stealth Bomber Patriot Missile and the Roborator project or such historical topics as forts Molotov cocktails or the U 2 *Encyclopedia of Military Technology and Innovation* is a must have reference Warfare and national defense have provided a strong stimulus for technological advances throughout history This reference provides students and researchers from high school through college scholars and the general public essential information historical perspective and scientific context to understand better the development capabilities and uses of major military technologies Fifty illustrations helpful cross references a bibliography and an index help users navigate this reference and supplement their research
