School Mathematics Project, 1999      **Everyday Mathematics** University of Chicago. School Mathematics Project, 2001      **Implementing and Analyzing Performance Assessments in Teacher Education** Joyce E. Many, Ruchi Bhatnagar, 2017-12-01 Teacher education has long relied on locally developed assessments that lack reliability and validity Rigorous performance based assessments for preservice teachers have been advanced as one possible way to ensure that all students receive instruction from a high quality teacher Recently performance based assessments have been developed which focus on the application of knowledge of teaching and learning in a classroom setting Our book explores factors related to the implementation of teacher performance assessments in varying state and institutional contexts The contributors teacher educators from across the country focus on what was learned from inquiries conducted using diverse methodologies quantitative qualitative self studies and mixed methods Their research encompassed faculty supervisors cooperating teachers and students perceptions and concerns of teacher performance assessments case studies of curricular reform and or resistance analyses of experiences and needs as a result of the adoption of such assessments and examinations of the results of program alignment and reform The chapters showcase experiences which occurred during high stakes

situations in implementation periods prior to high stakes adoption and in contexts where programs adopted performance assessments as an institutional policy rather than as a result of a state wide mandate

**Endorsements**

The chapters compiled for *Implementing and Analyzing Performance Assessments in Teacher Education* edited by Joyce E Many and Ruchi Bhatnagar present a thoughtful look at the challenges and solutions embedded in the adoption of teacher performance assessments for preservice teachers

Most chapters feature edTPA the most commonly used performance assessment now mandated in numerous states and used voluntarily by other programs across the country and reveal how such assessments shine a bright light on the problems of practice in teacher preparation stressful timelines faculty silos communication with P 12 partners etc when new requirements disrupt the status quo

Each chapter tells a valuable story of performance assessment implementation and approaches that offset compliance in favor of inquiry and educative experiences for candidates and programs alike

Andrea Whittaker Ph D edTPA National Director Stanford University Graduate School of Education

UL SCALE

Many and Bhatnagar launch the AAPE book series with a curated volume highlighting the contexts in which teacher educators implement and utilize performance assessments in educator preparation

Together the chapters present research from various viewpoints from candidates faculty university supervisors and clinical partners using diverse methodologies and approaches

The volume contributes significantly to the program assessment research landscape by providing examples of how performance assessments inform preparation at the intersection of praxis and research and campus and field

These chapters provide a critical foundation for teacher educators eager to leverage performance assessments to improve their programs
