Kocherla Sankara Rao, **Thinking in Search of a Language** Herwig Friedl, 2018-09-20 Thinking in Search of a Language explores American literary and philosophical traditions and their intimate connections by focusing on two defining strands in the intellectual history of the United States The first half of the book offers a multifaceted interpretation of Emerson's constantly shifting early modernist thought I liked everything by turns and nothing long he said memorably and its legacy in American writing The second half turns to the modernists themselves and the pluralistic and radical empiricist ways in which they engaged the world philosophically Herwig Friedl's broad and deep examination of American thought which also incorporates the international context and response illuminates the global significance of the American intellectual tradition Tying together all of these essays is the persistent question and problem of an adequate language or terminological framework as one kind of interpretive leitmotif This reflects the fact that Friedl's sensibility is steeped in a cross pollination of continental and American thought a combination that recalls and is as revelatory as the work of Stanley Cavell

marred by externalist readings that do not engage with Dewey's thinking from the inside and suggests that this throws doubt upon the new revisionary histories of analytic philosophy and Deweyan pragmatism according to which the marginalization of Dewey's pragmatism represents the sensible result of critical processes of reasoning. At the same time however the book also points out that Dewey and his analytic critics in fact share several worries and suggests that these common concerns might serve as points of reference for more fruitful dialogues across the traditions of analytic philosophy and Deweyan pragmatism in the future.

**Thinking Faith after Christianity** Martin Koci, 2020-06-01 Winner of the 2020 Emerging Scholar's Theological Book Prize presented by the European Society for Catholic Theology. This book examines the work of Czech philosopher Jan Patočka from the largely neglected perspective of religion. Patočka is known primarily for his work in phenomenology and ancient Greek philosophy and also as a civil rights activist and critic of modernity. In this book Martin Koci shows Patočka also maintained a persistent and increasing interest in Christianity. *Thinking Faith after Christianity* examines the theological motifs in Patočka's work and brings his thought into discussion with recent developments in phenomenology making a case for Patočka as a forerunner to what has become known as the theological turn in continental philosophy. Koci systematically examines his thoughts on the relationship between theology and philosophy and his perennial struggle with the idea of crisis. For Patočka modernity, metaphysics and Christianity were all in different kinds of crises and Koci demonstrates how his work responded to those crises creatively providing new insights on theology understood as the task of thinking and living transcendence in a problematic world. It perceives the unthought element of Christianity what Patočka identified as its greatest resource and potential not as a weakness but as a credible way to ponder Christian faith and the Christian mode of existence after the proclaimed death of God and the end of metaphysics.
