'Absurd' in Rajiv Joseph's Post-9/11 Plays Qurratulaen Liaqat,2023-07-19 What is a suitable genre to describe the post 9 11 era mired in wars violence and unspeakable horror What kind of literary expressions and techniques are appropriate to give voice to the prevalence of global anguish in the post 9 11 scenario Is the Theatre of the Absurd a viable option for the expression of the incongruity of the unspeakable horror unleashed after 9 11 Is the term absurd applicable to this era If yes in what terms is this applicable This book tries to find answers to these questions and many more It reflects on the epistemological shifts in the avant garde tradition of the Theatre of the Absurd its ongoing critical currency in contemporary history and its changing contours in the post 9 11 plays of Rajiv Joseph an emerging American dramatist It establishes the continued relevance of the Theatre of the Absurd at the current juncture of human history **Videoland** Daniel

Herbert,2014-01-24 Videoland offers a comprehensive view of the tangible phase of consumer video when Americans largely accessed movies as material commodities at video rental stores Video stores served as a vital locus of movie culture from the early 1980s until the early 2000s changing the way Americans socialized around movies and collectively made movies meaningful When films became tangible as magnetic tapes and plastic discs movie culture flowed out from the theater and

the living room entered the public retail space and became conflated with shopping and salesmanship In this process video stores served as a crucial embodiment of movie culture s historical move toward increased flexibility adaptability and customization In addition to charting the historical rise and fall of the rental industry Herbert explores the architectural design of video stores the social dynamics of retail encounters the video distribution industry the proliferation of video recommendation guides and the often surprising persistence of the video store as an adaptable social space of consumer culture Drawing on ethnographic fieldwork cultural geography and archival research Videoland provides a wide ranging exploration of the pivotal role video stores played in the history of motion pictures and is a must read for students and scholars of media history The Student's Manual Chandler B. Beach,1909 War Culture and the Contest of Images Dora Apel,2012-10-19 War Culture and the Contest of Images analyzes the relationships among contemporary war documentary practices and democratic ideals Dora Apel examines a wide variety of images and cultural representations of war in the United States and the Middle East including photography performance art video games reenactment and social media images Simultaneously she explores the merging of photojournalism and artistic practices the effects of visual framing and the construction of both sanctioned and counter hegemonic narratives in a global contest of images As a result of the global visual culture in which anyone may produce as well as consume public imagery the wide variety of visual and documentary practices present realities that would otherwise be invisible or officially off limits In our digital era the prohibition and control of images has become nearly impossible to maintain Using carefully chosen case studies such as Krzysztof Wodiczko s video projections and public works in response to 9 11 and the wars in Iraq and Afghanistan the performance works of Coco Fusco and Regina Galindo and the practices of Israeli and Palestinian artists Apel posits that contemporary war images serve as mediating agents in social relations and as a source of protection or refuge for those robbed of formal or state sanctioned citizenship While never suggesting that documentary practices are objective translations of reality Apel shows that they are powerful polemical tools both for legitimizing war and for making its devastating effects visible In modern warfare and in the accompanying culture of war that capitalism produces as a permanent feature of modern society she asserts that the contest of images is as critical as the war on the ground **Fahrenheit 9-12** Aaron Reichel Esq.,2004-12-15 The film Fahrenheit 9 11 convinces nearly all who see it and believe it that George Bush was unfit to lead on 9 11 and beyond Fahrenheit 9 12 this book convinces nearly all who read it that a review of the sources of virtually every frame and every claim in the film reveals that virtually everything in Fahrenheit 9 11 is arguably misleading or inaccurate Fahrenheit 9 12 is not for everyone it is just for those intellectually honest people who hate President Bush as well as for those who do not The Bush bashers are doomed to four years of misery and frustration unless the distortions on which they base their bashes will be exposed to them Fahrenheit 9 12 brings relief to those who have taken Michael Moore s criticisms of President Bush to heart and who have suffered heartache or heartburn ever since Many people who do not hate President Bush will be relieved and reinvigorated

once they discover the lack of merit of most of the film's assaults on Bush's character intelligence and judgment. Readers who saw or boycotted Moore's film can appreciate Reichel's rebuttals enough to want to show his book to or buy copies for friends, colleagues, team mates, teachers, students and or relatives who believe that Fahrenheit 9/11 the film deserves even a fraction of the respect, acclaim and or popularity it has received, thereby reducing tension in many personal or even professional relationships. Fahrenheit 9/12 this book replaces ad hominem discord with rational discourse.

Literature for Young Adults Joan L. Knickerbocker, James A. Rycik, 2019-08-28. Now in its second edition, this book explores a great variety of genres and formats of young adult literature while placing special emphasis on contemporary works with nontraditional themes, protagonists and literary conventions that are well suited to young adult readers. It looks at the ways in which contemporary readers can access literature and share the works they're reading and it shows teachers the resources that are available, especially online, for choosing and using good literature in the classroom and for recommending books for their students' personal reading. In addition to traditional genre chapters, this book includes chapters on literary nonfiction, poetry, short stories and drama and film. Graphic novels, diversity issues and uses of technology are also included throughout the text. The book's discussion of literary language, including traditional elements as well as metafictional terms, enables readers to share in a literary conversation with their peers and others when communicating about books. This book is an essential resource for preservice educators to help young adults understand and appreciate the excellent literature that is available to them. New to the second edition: New popular authors, books and movies with a greater focus on diversity of literature. Updated coverage of new trends such as metafiction, a renewed focus on nonfiction and retellings of canonical works.
