Fred Sandback Drawings:

Fred Sandback Dieter Schwarz, 2014 From the beginning of his career Fred Sandback 1943 2003 used drawing to formulate his ideas of sculptural volume In pictures of existing rooms Sandback explored the possibilities of spaces and planes by drawing his famous horizontal vertical and diagonal lines in colored pencil In the 1980s he expanded his drawing repertoire to include acrylic the pochoir technique and pastel In these late drawings considered to be more pictorial than his pencil sketches Sandback elaborated on the experience of space mass and volume in ways impossible in a coherent space many of these sculptural ideas are absolutely boundless Only a specific section of the whole is intimated in the drawing for which Sandback invented unusual techniques actual incisions instead of drawn lines for instance or painterly traces on transparent film Superbly produced and edited *Fred Sandback Drawings* assembles works from a 30 year span supplemented by sculptural works **Fred Sandback** Fred Sandback, 2007 As a student at Yale Fred Sandback struggled with sculpture until George Sugarmann told him if you are so sick of the parts why not just make a line with a ball of string and be done with it For the rest of his career Sandback used taut and resonant strings to sculpt space and light **Fred Sandback** , 1988

Fred Sandback , 1977 *Fred Sandback, drawing spaces* Fred Sandback, 2011 The American artist Fred Sandback became famous in the 1970s for his sculptures made of coloured acrylic yarn which he used to rewrite geometric bodies or to impact upon spatial situations This catalogue presents for the first time a broad selection of Sandback's works on paper drawings and prints This provides impressive evidence of how Sandback has seamlessly transferred the classic techniques of lithography etching and woodcuts into the aesthetics of his time and retraced the development process of his sculptures in his prints Published on the occasion of the exhibition *Fred Sandback R ume zeichnen* May August 2011 Wilhelm Hack Museum Ludwigshafen am Rhein English and German text *Fred Sandback: Decades* Fred Sandback, 2013-07-31 Known for sculptures that outline planes and volumes in space using the humblest of materials Fred Sandback 1943 2003 was an American artist whose work is informed by a minimalist artistic vocabulary Though Sandback employed metal wire and elastic cord in his earliest works the artist soon dispensed with these materials and began using acrylic yarn to create sculptures that produced perceptual illusions while addressing their physical surroundings the pedestrian space as Sandback called it of everyday life Throughout the course of his career yarn enabled the artist to elaborate on the phenomenological experience of space and volume with unwavering consistency and ingenuity *Fred Sandback Decades* is the third in a series of illustrated hardcover monographs on the artist published by David Zwirner Documenting the eponymous exhibition held at the gallery in 2012 this award winning publication covers a selection of Sandback's work dating from 1968 to 2008 thus spanning five decades of production With ninety reproductions in color this beautifully produced catalogue includes a fully illustrated chronology with selected biographical and bibliographical material as well as new scholarship on Sandback by art historian James Lawrence , **Fred Sandback** Fred Sandback, 2005 Fred Sandback wanted from the beginning to make

sculpture but sculpture with neither volume nor mass neither interior nor exterior For more than half his life he succeeded in that impossible sounding task solving its riddle with lines in the form of steel wire and acrylic string He described spaces constructed perspectives and demarcated borders visible and invisible The drawings on paper collected here while closely allied to his exhibition work were seldom mere drafts or working sketches they are autonomous and self confident signs
