

Subjunctive

1. Subjunctive in French

Chapters 1 through 12 in this book deal with verb constructions in the indicative mood. The term mood describes the form of the verb showing the subject's attitude. In this and the next two chapters, you will see how the subjunctive mood enables speakers of French to express a variety of attitudes through different verb forms and constructions.

a. The indicative and the subjunctive

The indicative mood states facts and expresses certainty or reality. The subjunctive mood expresses uncertainty, doubt, wishes, desires, conjecture, suppositions, and conditions that are unreal or contrary to fact. The subjunctive occurs much more frequently in French than in English.

b. Use of the subjunctive

In French, the subjunctive normally occurs in dependent clauses introduced by a conjunction containing *que* or by a relative pronoun (usually *qui* or *que*):

Téléphonez-moi avant **que je parte**.

Nous cherchons une secrétaire **qui sache** parler arabe.

Je doute **que vous compreniez**.

Call me before I leave.

We are looking for a secretary who knows how to speak Arabic.

I doubt (that) you understand.

NOTE:

1. Verbs in the present subjunctive may express actions that take place in the present or in the future:

Il faut **que tu partes**.

Il est possible **que nous perdions** le match.

It is necessary that you leave.
(You must leave.)

It is possible that we will lose the match.

2. French subjunctive forms may have various English equivalents. Compare all examples in Chapters 13, 14, and 15 carefully.
