Correspondence, Invariance and Heuristics S. French, H. *The Interplay between European and National Competition Law after Regulation 1/2003* Lúcio Tomé Feteira, 2015-12-08 If we can speak of the European Community's economic constitution we can assert that competition rules together with free movement rules form its core Notably implementation of the competition rules enshrined in Articles 81 and 82 EC changed radically with the enactment of Regulation 1 2003 which in effect dispensed with mandatory prior notifications and allowed national authorities to apply Article 101 3 TFEU directly Given that national legislations perceive certain types of unilateral conduct even if adopted by a non dominant undertaking as a potential source of anticompetitive effects an important question concerns the leeway enjoyed by national authorities under the exception to the convergence rule in Article 3 2 of Regulation 1 2003 and the consequent effect on both legal practice and policy issues In this lucidly argued book focusing on national competition provisions in Germany France Italy and the United Kingdom that deal with such conduct the author provides a detailed examination of how such considerations as the following are affected by Regulation 1 2003 prohibition of abuse of economic dependence or superior bargaining power the particular susceptibility of long term contracts prohibition of resale at a loss or below cost prohibition of boycott unlawful pressures threats and other coercive tactics adopted by undertakings and the role of unfair competition law The analysis follows a functional method of comparative legal analysis reviewing the most relevant norms in the selected jurisdictions particularly in what concerns their goals and function in the context of their respective legal systems Special attention is paid to two specific sectors the motor vehicle and the retailing industries which have most often triggered relevant legislation and case law in the jurisdictions covered Legal scholarship in the field is also drawn upon In its clarification of the meaning of Regulation 1 2003 this book allows practitioners to fully grasp its scope The author's thorough

masterful analysis of the statutory framework of Article 3 of the regulation also reveals the variety of reasons why different Member States have different competition policies on the scope of the exception to the rule of convergence and in this way provides lawyers policymakers and academics with welcome insights on how major EU jurisdictions apply European competition law
