## Introduction

This paper would discuss and evaluate the causes of the origin and evolution of the world-famous French Revolution. It would cover all aspects and perspectives of the French Revolution.

Revolution - the term means to rebel or overthrow a government or a social system. It results in a complete change from the existing situation. History shows that there has been some type of revolution almost all over the world at various times. Europe has also had its share of revolution. The famous uprising in France in the 18th century resulted in what is now known as the French Revolution.

## Main body

The French revolution, in this part of the world at least, was the inspiration for all subsequent uprisings and revolts throughout Europe in the nineteenth century and its ideals, in part, are visible in many of the twentieth centuries' wars as well. Before talking about the reasons why the revolution occurred, it is appropriate to place it in its context in European history. The French revolution has traditionally been viewed as a major dividing line in modern Europe's history, an event which has destroyed that complex of political, social, legal, and juridical institutions known as the old regime and inaugurated a new era characterized by a greater emphasis upon individual rights, the spread of a representative government and the emergence of a new kind of loyalty to the nation.

Historicizing the French Revolution Antonino De Francesco, 2022-03-24 This book provides a critical examination of over 300 historical works about the French Revolution published in Europe in particular in France Great Britain Germany Italy and Russia as well as in the United States between 1789 and 1989 It also goes on to examine recent trends in French Revolution historiography and consider where histories of this landmark event may go in the future By emphasizing the elements which have been valued or hidden exalted or silenced Historicizing the French Revolution shows how reflections on 1789 are always fundamentally tied to the times in which they are formulated Antonino De Francesco looks at the ways in which these historical accounts can be seen to support and at times contrast with the formation of political modernity both in national and international contexts as it has taken shape in the hundreds of years that have followed this key moment in world history
