Science, Grade 1 Holly Rafidi, 2016-01-04 Interactive Notebooks Science for grade 1 is a fun way to teach and reinforce effective note taking for students. Students become a part of the learning process with activities about living and nonliving things, habitats, states of matter, light, soil, weather, and more. This book is an essential resource that will guide you through setting up, creating, and maintaining interactive notebooks for skill retention in the classroom. High interest and hands-on interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year. Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts, or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience. Visual Instruction

Activities: High School, *Teaching Text Features to Support Comprehension* Michelle Kelley, Nicki Clausen-Grace, 2015-05-26 When K-5 students understand how to read text features like diagrams, bullets, insets, and tables, they are reading the whole page essential for deep comprehension of nonfiction and fiction text. In this revised edition of *Reading the Whole Page: Teaching and Assessing Text Features to Meet K-5 Common Core Standards*, seasoned educators Michelle Kelley and Nicki Clausen-Grace show you how to explicitly teach K-5 students to read text features, use them to navigate text, and include them in their own writing. The classroom-proven mini-lessons, activities, and assessment tools in *Teaching Text Features to Support Comprehension* help you teach relevant Common Core State Standards and grade-level expectations, diagnose, monitor, and meet student needs with one of two level-appropriate assessments, evaluate knowledge with a unique picture book that can be downloaded, that illustrates all the text features, and monitor and guide differentiated instruction with a convenient class profile. Sixty mini-lessons for teaching print, graphic, and organizational features provide ample choices for meeting the standards while adapting to students' needs. Flexible lessons which follow the gradual release of responsibility model and increase in difficulty can be used within the typical 90-minute reading block during content area instruction in small groups and as part of independent practice opportunities like literacy centers. Each lesson offers concept review, suggestions for differentiation, assessment options, and technology connections requiring students to find, explore, manipulate, and create text features in their own writing. Even more activities from text feature walks to scavenger hunts help students integrate text feature knowledge as they read. The downloadable materials provided online include important resources and convenient lesson supports such as interactive think-sheets that can be filled out directly on the computer.
