From A Distance:

From a Distance (Timber Ridge Reflections Book #1) Tamera Alexander, 2008-06-01 First in a romantic historical series from a bestselling author set in the Colorado Territory during the 1870 s Leading Rome from a Distance, 300 BCE-37 CE Ralph Lange, 2024-10-17 Roman political leaders used distance from Rome as a key political tool to assert pre eminence Through the case studies of Caesar s hegemony Augustus s autocracy and Tiberius s reign this book examines how these figures experiences and manipulations of absence established a multipolar focus of political life centred less on the city of Rome and more on the idea of a single leader The Roman expansion over Italy and the Mediterranean put the political system under considerable stress and eventually resulted in a dispersal of leadership and a decentralization of power Absent generals rivalled their peers in Rome for influence and threatened to surpass them from the provinces Roman leaders from Sulla to Tiberius used absence as a mechanism to act autonomously but it came at the cost of losing influence and control at the centre In order to hold influence while being split off from the decision making powers of the geographical nucleus that was Rome communication channels to mitigate necessary absences were developed during this period such as travel intermediate meetings letters propaganda writings and a complex network of mediators ultimately forming the circle from which the imperial court emerged Absent leadership as it developed throughout the Late Republic a hitherto neglected issue eventually became a valuable asset in the institutionalising process of the autocracy of Caesar Augustus and Tiberius
