experienced can have a profound impact upon the behaviors and attitudes of others Often we underestimate the impressions made by carefully chosen words words that have the power to embolden encourage uplift and motivate one to greatness With these concepts in mind I have undertaken the task of composing this book with the intent to inspire young people to make better choices in their daily interactions with others This will help build strong permanent character traits that will help guide them to success and happiness Throughout this written work are direct quotes of learned individuals whose opinions and philosophies have spanned generations yet have lost none of their intrinsic value as words to live by The purpose behind using quotes is two fold 1 To supplement the lesson being taught and 2 to inspire the reader to pay close attention to the words of others in effect to be an effective listener I might also stress that the quality of some one elses words is not

determined by whether they are famous or not Wisdom can be harvested from the most humble of individuals as well as the most celebrated It is not confined to those known for the greatest intellect but it is found within a vast array of socio economic circles among the great and the small What matters most is whether ones words are meaningful and if they can be of beneficial to others If you would like more information about these programs visit [www thequote online com](http://www.thequoteonline.com) *Rigor Is NOT a Four-Letter Word* Barbara R.
