HEALTH FOUNDATION**

Promoting a Healthy Community

ANNUAL REPORT

2021

We have all faced a year and a half of extreme uncertainty and change. There has not been a moment when the Buhl Regional Health Foundation hasn't been focused on the health and welfare of everyone within our mission's footprint.

With that said, we continue our focus on equity and wellbeing, as well as access to health care addressing the needs of all people throughout the region. We are poised to begin impactful projects, programs and education for residents of the BRHF area. Our Board is ready to support the efforts of our Executive Director, Jennifer Barborak and I am excited for what lies ahead!

Rest assured, the year ahead will be challenging as we continue to keep our community safe. We will continue to address the pandemic and provide as much education and insight into every health related issue that may arise. My personal best to everyone and on behalf of the Board of Directors, we wish you well.

Congress. Senate. Committee on Labor and Public Welfare, **Acts of Conscience** Steven J. Taylor, 2009-07-10 In the mid to late 1940s a group of young men rattled the psychiatric establishment by beaming a public spotlight on the squalid conditions and brutality in our nation's mental hospitals and training schools for people with psychiatric and intellectual disabilities Bringing the abuses to the attention of newspapers and magazines across the country they led a reform effort to change public attitudes and to improve the training and status of institutional staff Prominent Americans such as Eleanor Roosevelt ACLU founder Roger Baldwin author Pearl S Buck actress Helen Hayes and African American activist Mary McLeod Bethune supported the efforts of the young men These young men were among the 12 000 World War II conscientious objectors who chose to perform civilian public service as an alternative to fighting in what is widely regarded as America's good war Three thousand of these men volunteered to work at state institutions where they discovered appalling conditions Acting on conscience a second time they challenged America's treatment of its citizens with severe disabilities Acts of Conscience brings to light the extra ordinary efforts of these courageous men drawing upon extensive archival research interviews and personal correspondence The World War II conscientious objectors were not the first to expose public institutions and they would not be the last What distinguishes them from reformers of other eras is that their activities have faded from the professional and popular memory Taylor's moving account is an indispensable contribution to the historical record False Dawn Lee Penn, 2004 The interfaith movement which began with the 1893 World's Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today's interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI's proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People's Republic of China The interfaith

movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In The Reign of Quantity and the Signs of the Times French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion org
