Interdisciplinary Approaches to Human Rights Rajini Srikanth,Elora Halim

Chowdhury,2018-10-30 Interdisciplinary Approaches to Human Rights History Politics Practice is an edited collection that brings together analyses of human rights work from multiple disciplines Within the academic sphere this book will garner interest from scholars who are invested in human rights as a field of study as well as those who research and are engaged in the praxis of human rights Referring to the historical and cross cultural study of human rights the volume engages with disciplinary debates in political philosophy gender and women s studies Global South Third World studies international relations psychology and anthropology At the same time the authors employ diverse methodologies including oral history theoretical and discourse analysis ethnography and literary and cinema studies Within the field of human rights studies this book attends to the critical academic gap on interdisciplinary and praxis based approaches to the field as opposed to a predominantly legalistic focus drawing from case studies from a wide range of contexts in the Global South including Bangladesh Colombia Haiti India Mexico Palestine and Sudan as well as from Australia and the United States in the Global North For students who will go on to become researchers practitioners policy makers and activists this collection of essays will demonstrate the multifaceted landscape of human rights and the multiple forces philosophical political cultural economic historical that affect it

Communities, Neighborhoods, and Health Linda M. Burton,Susan P. Kemp,ManChui

Leung,Stephen A. Matthews,David T. Takeuchi,2011-02-15 Place is an important element in understanding health and health care disparities More than merely a geographic location place is a socio ecological force with detectable effects on social life independent well being and health Despite the general enthusiasm for the study of place and the potential it could have for a better understanding of the distribution of health in different communities research is at a difficult crossroads because of disagreements in how the construct should be conceptualized and measured This edited volume incorporates a cross disciplinary approach to the study of place in order to come up with a comprehensive and useful definition of place Topics covered include Social Inequalities Historical Definitions of Place Biology and Place Rural vs Urban Places Racialization of a Place Migration Sacred Places Technological Innovations An understanding of place is essential for health care professionals as interventions often do not have the same effects in the clinic as they do in varied naturalistic social settings

Precarity

Shioh Groot,2017-09-01 Leading UK economist Guy Standing has referred to the precariat as a class in the making The Precariat are our fellow citizens be they poor elderly disabled homeless estranged from their cultural communities refugees engaged in casual work who lead lives of uncertainty dependency powerlessness perilousness and insufficiency They are the

outcome of the gradual dismantling of the welfare state and the withering of union representation They are also the victims of the changing nature of work This important book moves beyond the world of labour to identify and illustrate other forms of precarity in New Zealand including the lack of opportunities for cultural expression and the struggle to be safe It focuses on New Zealand's emerging class not to further vilify it but rather to place its members' lived experience in plain sight As the editors say It is time that all New Zealanders understood the reality of what many of our citizens endure in the struggle to make ends meet and live dignified lives

Digital Health Deborah Lupton, 2017-08-18 The rise of digital health technologies is for some a panacea to many of the medical and public health challenges we face today This is the first book to articulate a critical response to the techno-utopian and entrepreneurial vision of the digital health phenomenon Deborah Lupton internationally renowned for her scholarship on the sociocultural and political aspects of medicine and health as well as digital technologies addresses a range of compelling issues about the interests digital health represents and its unintended effects on patients doctors and how we conceive of public health and healthcare delivery Bringing together social and cultural theory with empirical research the book challenges apolitical approaches to examine the impact new technologies have on social justice and the implication for social and economic inequalities Lupton considers how self-tracking devices change the patient doctor relationship and how the digitisation and gamification of healthcare through apps and other software affects the way we perceive and respond to our bodies She asks which commercial interests enable different groups to communicate more widely and how the personal data generated from digital encounters are exploited Considering the lived experience of digital health technologies including their emotional and sensory dimensions the book also assesses their broader impact on medical and public health knowledges power relations and work practices Relevant to students and researchers interested in medicine and public health across sociology psychology anthropology new media and cultural studies as well as policy makers and professionals in the field this is a timely contribution on an important issue
