

# Environmental Science Study Guide: Human Population and Geography

### Glossary

Students use the glossary to help understand these terms:

- Demography** – The study of human population, how it changes, and why it changes.
- Demographic Transition** – Model explaining growth trends as a country's economy changes.
- Crashling Wave** – The arrival of the modern world, to which traditional indigenous societies react.
- Carrying Capacity** – Maximum number of individuals an environment can support based on the availability of resources.
- Food Pyramid** – The energy source of different organisms in an ecosystem.
- Human Geography** – The study of human spatial patterns and the relationship between humans and the environment.
- Population Density** – The number of people living in a given area.
- Population Growth** – The increase in the number of people in a population.
- Population Pyramid** – A graph showing the distribution of a population by age and sex.
- Population Policy** – A government's strategy to manage its population.
- Population Pressure** – The strain on resources caused by a large population.

### Critical Thinking

Students read, analyze, and give answers to questions that focus on:

1. The relationship between the demographic trends between developed and developing countries.

|            | Developed Countries                                                   | Developing Countries                                                  | World Population | Population Growth Rate | Population Pyramid |
|------------|-----------------------------------------------------------------------|-----------------------------------------------------------------------|------------------|------------------------|--------------------|
| Developed  | High income, low birth rate, low death rate, low population growth.   | Low income, high birth rate, high death rate, high population growth. | High             | High                   | High               |
| Developing | Low income, high birth rate, high death rate, high population growth. | High income, low birth rate, low death rate, low population growth.   | Low              | Low                    | Low                |

2. How the world's population is changing and why.
3. How the world's population is changing and why.
4. How the world's population is changing and why.
5. How the world's population is changing and why.
6. How the world's population is changing and why.
