into fourth largest AF operating at frontiers of technologies with multi dimensional capabilities and a potent force to reckon
with It is said that the history is written by winners But what is important is that the history is documented impartially
objectively and factually as much as possible It may be worth for IAF to consider coming out with a book each on Operations
Maintenance and Administration depicting the historical decisions taken successes and failures in equal measure and how
the IAF progressed over the decades to be what it is today a professionally managed optimally exploited synergistically
working and one of the most effective instruments of national power to ensure accomplishing objectives of the nation Yes
coffee table books and anniversary issues do gloss over a few events but the real history is made by the toil blood and sweat
and tears of the men behind these operations Individual awards and citations many times compromise on actualities and are
miserly with truth History is an argument without an end said Pieter Geyl the Dutch historian I am glad to recommend this
