## **Identity And Capitalism:**

Identity and Capitalism Marie Moran, 2014-11-13 This is a splendid book that dispels myths about identity and presents a cultural materialist case for the study of such keywords and their preoccupations under the hegemony of neoliberal capitalism Professor Jim McGuigan Loughborough University Identity particularly as it is elaborated in the associated categories of personal and social identity is a relatively novel concept in western thought politics and culture The explosion of interest in the notion of identity across popular political and academic domains of practice since the 1960s does not represent the simple popularisation of an older term as is widely assumed but rather the invention of an idea Identity and Capitalism explores the emergence and evolution of the idea of identity in the cultural political and social contexts of contemporary capitalist societies Against the common supposition that identity always mattered this book shows that what we now think of routinely as personal identity actually only emerged with the explosion of consumption in the late twentieth century It also makes the case that what we now think of as different social and political identities only came to be framed as such with the emergence of identity politics and new social movements in the political landscapes of capitalist societies in the 60s and 70s Marie Moran provides an important new exploration of the articulation of the idea of identity to the social logic of capitalism from the organised capitalism of the mid twentieth century up to and including the neoliberal capitalism that prevails today Drawing on the work of Raymond Williams the cultural materialist approach developed here provides an original means of addressing the political debates about the value of identity in contemporary capitalist societies *Identity Capitalists* Nancy Leong, 2021-02-09 Nancy Leong reveals how powerful people and institutions use diversity to their own advantage and how the rest of us can respond and do better Why do people accused of racism defend themselves by pointing to their black friends Why do men accused of sexism inevitably talk about how they love their wife and daughters Why do colleges and corporations alike photoshop people of color into their websites and promotional materials And why do companies selling everything from cereal to sneakers go out of their way to include a token woman or person of color in their advertisements In this groundbreaking book Nancy Leong coins the term identity capitalist to label the powerful insiders who eke out social and economic value from people of color women LGBTQ people the poor and other outgroups Leong deftly uncovers the rules that govern a system in which all Americans must survive the identity marketplace She contends that the national preoccupation with diversity has counterintuitively allowed identity capitalists to infiltrate the legal system educational institutions the workplace and the media Using examples from law to literature from politics to pop culture Leong takes readers on a journey through the hidden agendas and surprising incentives of various ingroup actors She also uncovers a dire dilemma for outgroup members do they play along and let their identity be used by others or do they protest and risk the wrath of the powerful Arming readers with the tools to recognize and mitigate the harms of exploitation Identity Capitalists reveals what happens when we prioritize diversity over equality **Identity Capitalists** Nancy

Leong,2024-08-06 Nancy Leong reveals how powerful people and institutions use diversity to their own advantage and how the rest of us can respond and do better Why do people accused of racism defend themselves by pointing to their black friends Why do men accused of sexism inevitably talk about how they love their wife and daughters Why do colleges and corporations alike photoshop people of color into their websites and promotional materials And why do companies selling everything from cereal to sneakers go out of their way to include a token woman or person of color in their advertisements In this groundbreaking book Nancy Leong coins the term identity capitalist to label the powerful insiders who eke out social and economic value from people of color women LGBTQ people the poor and other outgroups Leong deftly uncovers the rules that govern a system in which all Americans must survive the identity marketplace She contends that the national preoccupation with diversity has counterintuitively allowed identity capitalists to infiltrate the legal system educational institutions the workplace and the media Using examples from law to literature from politics to pop culture Leong takes readers on a journey through the hidden agendas and surprising incentives of various ingroup actors She also uncovers a dire dilemma for outgroup members do they play along and let their identity be used by others or do they protest and risk the wrath of the powerful Arming readers with the tools to recognize and mitigate the harms of exploitation Identity Capitalists reveals what happens when we prioritize diversity over equality

#### **Universality and Identity Politics**

Todd McGowan,2020-07-21 The great political ideas and movements of the modern world were founded on a promise of universal emancipation But in recent decades much of the Left has grown suspicious of such aspirations Critics see the invocation of universality as a form of domination or a way of speaking for others and have come to favor a politics of particularism often derided as identity politics Others both centrists and conservatives associate universalism with twentieth century totalitarianism and hold that it is bound to lead to catastrophe This book develops a new conception of universality that helps us rethink political thought and action Todd McGowan argues that universals such as equality and freedom are not imposed on us They emerge from our shared experience of their absence and our struggle to attain them McGowan reconsiders the history of Nazism and Stalinism and reclaims the universalism of movements fighting racism sexism and homophobia He demonstrates that the divide between Right and Left comes down to particularity versus universality Despite the accusation of identity politics directed against leftists every emancipatory political project is fundamentally a universal one and the real proponents of identity politics are the right wing Through a wide range of examples in contemporary politics film and history Universality and Identity Politics offers an antidote to the impasses of identity and an inspiring vision of twenty first century collective struggle

#### **Identity and Lifestyle: The Forces That Drive the World**

Mark Romel,2018-04-10 You build your lifestyle around your identity Your identity is your fate You are what you do and you do what you do because of your identity What you do constitutes your lifestyle Most people are so busy with their lifestyle that they fail to consider whether or not their lifestyle is helping them or hindering them You optimize yourself through having an optimal lifestyle but how do you

decide what lifestyle is best Most people drift into lazy easy convenient lifestyles acceptable to their peer group that guarantee they will fail in life Changing your lifestyle involves changing your identity and that is the most difficult thing possible for average people They don't have the will Don't bother talking about changing the world unless you are in the business of destroying old identities and lifestyles and creating brand new ones As soon as you try to change a person's sacred identity you are at war with them Are you ready for the mother of all wars      Laws of Rise and Demise Aleem Akhtar, 2013-07-30 Rise and demise of nations are man made and can be humanly controlled These are neither naturally determined nor divinely fated This book captures the root process presiding over the problems challenges and the opportunities nations of the world face today America has a three dimensional problem Its process controls have equated its purpose controls Internally it has developed integration energy traps Externally it has created a dangerously interest based world order America must move to the next level of human collectivity or an Armageddon might hit us all within the next few decades The Muslims idea of State is too invalid antiquated and perilously anti liberty to allow large political systems to evolve in the Islamic world It has been incessantly sinking back into anarchy The Arab Spring is continuation of medieval chaotic and identity based shift of power devoid of value and political mass With the given trends the world must be ready for more Talibans Bin Ladens and Al Qaedas possibly equipped with weapons of mass destruction India and China have big N factor But at controls level unsustainability afflicts China and an age old identity clamp is failing India Both nations will see reversals in near future China must realize that economic future is a component of political future not the other way round India must understand that democracy divorced from political creativity leads back to tyranny and anarchy The basis of the entire debate is Integration Energy Theory which explains the reality of human togetherness in a timeless and non spatial manner      **Beyond Profit** Samir Alamad, 2024-04-12 This book advocates for a transformative shift in economics emphasising the need to manage finite resources equitably while safeguarding universal well being It introduces the Equitable Optimality economic theory departing from materialistic views and championing a theory deeply rooted in moral economy values and ethics By integrating spirituality social justice and ethics into economic analysis this model contends that economics can serve the welfare of all offering a unique lens for economic theory and policy It challenges prevailing materialistic economic paradigms by proposing an interest balanced free financial economy This economic theory prioritises profit sharing societal objectives and equitable resource allocation aiming to create a more inclusive society However practical implementation and comprehensive research are crucial for understanding its impact and overcoming transitional challenges The Equitable Optimality economic theory provides a valuable perspective within economics focusing on ethical foundations acknowledging non monetary values and humanising economic agents It does not aim to replace conventional economic theories but offers an alternative framework to inspire innovative approaches to economic models and policymaking Its broader policy perspective aims to foster a more prosperous and harmonious society by integrating ethical

considerations equity and justice into economic decision making and emphasising societal welfare      **Social**

*Identity, Mediation, and the Cunning of Capital* Ani Maitra, 2020-05-15 In *Identity Mediation and the Cunning of Capital* Ani Maitra urgently calls for a reevaluation of identity politics as an aesthetic maneuver regulated by capitalism A dominant critical trend in the humanities Maitra argues is to dismiss or embrace identity through the formal properties of a privileged aesthetic medium such as literature cinema or even the performative body In contrast he demonstrates that identity politics becomes unavoidably real and material only because the minoritized subject is split between multiple sites of mediation visual linguistic and sonic while remaining firmly tethered to capitalism's hierarchical logic of value production Only in the interstices of media can we track the aesthetic conversion of identitarian difference into value marked by the inequities of race class gender and sexuality Maitra's archive is transnational and multimodal Moving from anticolonial polemics to psychoanalysis to diasporic experimental literature to postcolonial feminist and queer media he lays bare the cunning by which capitalism produces and fragments identity through an intermedial aesthetic dissonance with the commodity form Maitra's novel contribution to theories of identity and to the concept of mediation will interest a wide range of scholars in media studies critical race and postcolonial studies and critical aesthetics
