Guide to Computing Fundamentals in Cyber-Physical Systems Dietmar P.F. Möller, 2016-04-14 This book presents an in depth review of the state of the art of cyber physical systems CPS and their applications Relevant case studies are also provided to help the reader to master the interdisciplinary material Features includes self test exercises in each chapter together with a glossary offers a variety of teaching support materials at an associated website including a comprehensive set of slides and lecture videos presents a brief overview of the study of systems and embedded computing systems before defining CPS introduces the concepts of the Internet of Things and ubiquitous or pervasive computing reviews the design challenges of CPS and their impact on systems and software engineering describes the ideas behind Industry 4 0 and the revolutions in digital manufacturing including smart and agile manufacturing as well as cybersecurity in manufacturing considers the social impact of the changes in skills required by the globalized digital work environment of the future An Introduction to Audio Description Louise Fryer, 2016-04-20 An Introduction to Audio Description is the first comprehensive user friendly student guide to the theory and practice of audio description or media narration providing readers with the skills needed for the effective translation of images into words for the blind and partially sighted A wide range of examples from film to multimedia events and touch tours in theatre along with comments throughout from audio description users serve to illustrate the following key themes the history of audio description the audience the legal background how to write prepare and deliver a script Covering the key genres of audio description and supplemented with exercises and discussion points throughout this is the essential textbook for all students and translators involved in the practice of audio description Accompanying film clips are also available at <https://www.routledge.com/products/9781138848177> and on the Routledge Translation Studies Portal <http://www.routledge.com/textbooks/translationstudies> *Key Digital Trends Shaping the Future of Information and Management Science* Lalit Garg, Dilip Singh Sisodia, Nishtha Kesswani, Joseph G. Vella, Imene Brigui, Sanjay Misra, Deepak Singh, 2023-05-15 This book proceedings of ISMS 2022 is intended to be used as a reference by students and researchers who collect scientific and technical contributions with respect to models tools technologies and applications in the field of information systems and management science This textbook shows how to exploit information systems in a technology rich management field The book introduces concepts principles methods and procedures that will be valuable to students and scholars in thinking about existing organization systems proposing new systems and working with management professionals in implementing new information systems Antenna Engineering Handbook John Volakis, 2018-11-05 The gold standard reference on the design and application of classic and modern antennas fully updated to reflect the latest advances and technologies This new edition of the bible of antenna engineering has been updated to provide start to finish coverage of the latest innovations in antenna design and application You will find in depth discussion of antennas used in modern communication systems mobile and personal wireless technologies satellites radar deployments flexible electronics

and other emerging technologies including 5G terahertz and wearable electronics Antenna Engineering Handbook Fifth Edition is bolstered by real world examples hundreds of illustrations and an emphasis on the practical aspects of antennas Featuring 60 chapters and contributions from more than 80 renowned experts this acclaimed resource is edited by one of the world's leading antenna authorities This edition features all of the classic antenna types plus new and emerging designs with 13 all new chapters and important updates to nearly all chapters from past editions Antenna Engineering Handbook Fifth Edition clearly explains cutting edge applications in WLANs automotive systems PDAs and handheld devices making it an indispensable companion for today's antenna practitioners and developers Coverage includes Antenna basics and classic antennas Design approaches for antennas and arrays Wideband and multiband antennas Antennas for mobile devices and PDAs automotive applications and aircraft Base station and smart antennas Beamforming and 5G antennas Millimeter wave and terahertz antennas Flexible wearable thin film origami dielectric and on chip antennas MIMO antennas and phased arrays Direction finding and GPS antennas Active antennas Low profile wideband antennas Nanoantennas Reflectors and other satellite and radio telescope antennas Low frequency HF VHF UHF ECM and ESM antennas Impedance matching techniques and material characteristics Metastructured and frequency selective surfaces Propagation and guided structures Computational techniques and toolsets Indoor and outdoor measurements

Nearly Zero Energy Communities Ion Visa, Anca Duta, 2017-08-31 This book addresses the main challenges in implementing the concepts that aim to replace the regular fossil fuels based energy pattern with the novel energy pattern relying on renewable energy As the built environment is one major energy consumer well known and exploited by each community member the challenges addressing the built environment has to be solved with the consistent contribution of the community inhabitants and its administration The transition phase which already is under implementation is represented by the Nearly Zero Energy Communities nZEC From the research topics towards the large scale implementation the nZEC concept is analyzed in this book starting with the specific issues of the sustainable built environment beyond the Nearly Zero Energy Buildings towards a more integrated view on the community Chapter 1 and followed by various implementation concepts for renewable heating cooling Chapter 2 for renewable electrical energy production at community level Chapter 3 and for sustainable water use and reuse Chapter 4 As the topic is still new specific instruments supporting education and training Chapter 5 are needed aiming to provide the knowledge that can drive the communities in the near future and is expected to increase the acceptance towards renewable energy implemented at community level The sub chapters of this book are the proceedings of the 5th edition of the Conference for Sustainable Energy during 19-21 October 2017 organized by the R D Centre Renewable Energy Systems and Recycling in the R D Institute of the Transilvania University of Brasov This event was organized under the patronage of the International Federation for the Science of Machines and Mechanisms IFToMM the Technical Committee Sustainable Energy Systems of the European Sustainable Energy Alliance ESEIA and of the Romanian Academy of Technical Sciences

Transformer and Reactor Procurement Gilson M. Bastos, Tom Breckenridge, Mike Lamb, Tara-Lee MacArthur, Simon Ryder, 2022-09-19 This Green Book provides those involved in transformer procurement with comprehensive guidance on industry best practice to avoid wrong decisions Transformers are one of the expensive components in the power system and also contribute a large proportion of the losses Transformers also have long lives more than 40 years in many cases Making the wrong decisions during the procurement process can have serious and long lasting consequences *Power System Protection* Paul M. Anderson, Charles F. Henville, Rasheek Rifaat, Brian Johnson, Sakis Meliopoulos, 2022-02-15 Ein aktualisierter Leitfaden für den Schutz von Stromnetzen im 21. Jahrhundert Die zweite Ausgabe von Power System Protection enthält aktuelle Informationen über die technologischen und wirtschaftlichen Weiterentwicklungen beim Stromnetzschutz seit dem Erscheinen der letzten Ausgabe im Jahr 1998 Insbesondere werden die Auswirkungen von Kurzschlüssen in folgenden Bereichen untersucht Qualität der Stromversorgung Mehrere Einstellgruppen Distanzrelais mit vierseitigen Eigenschaften Belastbarkeit Darüber hinaus enthält das Werk umfassende Angaben zu den Auswirkungen von Änderungen der Geschäftsmodelle insbesondere in Bezug auf Deregulierung Disaggregation von Stromsystemen Zuverlässigkeit und Sicherheitsfragen Power System Protection bietet die analytische Grundlage für die Auslegung Anwendung und Einstellung von Netzschutzgeräten für moderne Ingenieure Aktuelle Informationen von Schutzingenieuren mit unterschiedlichen Schwerpunkten runden das umfassende Werk ab das somit sämtliche Aspekte des Fachgebiets erfasst Neue Vorschriften und neue Komponenten die in modernen Stromschutzsystemen enthalten sind werden ausführlich dargestellt Besonders gründlich wird der computergestützte Schutz behandelt sowie die Frage welche Folgen der Anschluss von Anlagen für erneuerbare Energien an Verteilungs- und Übertragungssysteme hat **Augmented Reality Art** Vladimir Geroimenko, 2022-05-16 This is the third edition of the first ever book to explore the exciting field of augmented reality art and its enabling technologies The new edition has been thoroughly revised and updated with 9 new chapters included As well as investigating augmented reality as a novel artistic medium the book covers cultural social spatial and cognitive facets of augmented reality art It has been written by a virtual team of 33 researchers and artists from 11 countries who are pioneering in the new form of art and contains numerous colour illustrations showing both classic and recent augmented reality artworks Intended as a starting point for exploring this new fascinating area of research and creative practice it will be essential reading not only for artists researchers and technology developers but also for students graduates and undergraduates and all those interested in emerging augmented reality technology and its current and future applications in art Handbook of Optimization in Electric Power Distribution Systems Mariana Resener, Steffen Rebennack, Panos M. Pardalos, Sérgio Haffner, 2020-02-24 This handbook gathers state of the art research on optimization problems in power distribution systems covering classical problems as well as the challenges introduced by distributed power generation and smart grid resources It also presents recent models solution techniques and computational tools to solve planning problems for power distribution systems and

explains how to apply them in distributed and variable energy generation resources As such the book therefore is a valuable tool to leverage the expansion and operation planning of electricity distribution networks

Hardware Security: Challenges and Solutions Ashutosh Mishra,Mrinal Goswami,Manoj Kumar,Navin Singh Rajput,2025-03-03 This book provides a comprehensive overview of hardware security challenges and solutions making it an essential resource for engineers researchers and students in the field The authors cover a wide range of topics from hardware design and implementation to attack models and countermeasures They delve into the latest research and industry practices in the field including techniques for secure chip design hardware Trojan detection side channel attack mitigation the threats and vulnerabilities facing modern hardware the design and implementation of secure hardware and the latest techniques for testing and verifying the security of hardware systems The book also covers emerging technologies such as quantum computing and the Internet of Things and their impact on hardware security With its practical approach and extensive coverage of the subject this book is an ideal reference for anyone working in the hardware security industry

Advances in Solar Photovoltaic Power Plants Md. Rabiul Islam,Faz Rahman,Wei Xu,2016-06-15 This book focuses on the latest research and developments in photovoltaic PV power plants and provides extensive coverage of fundamental theories current research and developmental activities and new approaches intended to overcome a number of critical limitations in today s grid integration technologies The design and implementation process for large scale solar PV power plants is introduced The content provided will actively support the development of future renewable power plants and smart grid applications The book will be of interest to researchers professionals and graduate students in electrical and electronics fields seeking to understand the related technologies involved in PV power plants

Springer Handbook of Power Systems Konstantin O. Papailiou,2021-04-12 This handbook offers a comprehensive source for electrical power professionals It covers all elementary topics related to the design development operation and management of power systems and provides an insight from worldwide key players in the electrical power systems industry Edited by a renowned leader and expert in Power Systems the book highlights international professionals longstanding experiences and addresses the requirements of practitioners but also of newcomers in this field in finding a solution for their problems The structure of the book follows the physical structure of the power system from the fundamentals through components and equipment to the overall system In addition the handbook covers certain horizontal matters for example Energy fundamentals High voltage engineering and High current and contact technology and thus intends to become the major one stop reference for all issues related to the electrical power system

Transformer Ageing Tapan Kumar Saha,Prithwiraj Purkait,2017-08-28 A one stop guide to transformer ageing presenting industrially relevant state of the art diagnostic techniques backed by extensive research data Offers a comprehensive coverage of transformer ageing topics including insulation materials condition monitoring and diagnostic techniques Features chapters on smart transformer monitoring frameworks transformer life estimation and biodegradable oil

Highlights industrially relevant techniques adopted in electricity utilities backed by extensive research Integrated Access in Live Performance Louise Fryer, Amelia Cavallo, 2021-11-21 Twelve per cent of UK theatregoers have a disability This compares with 18% of the UK's adult population Directors can help build audiences as diverse as the population at large by making their art accessible to all Live performances are increasingly being made accessible to people with sensory impairments not only to satisfy equality laws and the requirements of funding bodies but also in the interest of diversity and as a catalyst for creativity But how do you ensure you don't throw out the access baby with the artistic bathwater This book draws on the results of the Integrated Access Inquiry Is It Working A qualitative study with 20 theatremakers from around the UK it was commissioned by Extant Theatre the UK's leading company of blind and visually impaired people and combines feedback from disabled audiences with advice from the creative teams who have experimented with integrating access It discusses the challenges and opportunities of working with disabled actors and building in audience access even before rehearsals begin It offers strategies case studies and a step by step guide to help creative people integrate access into their live performance for the benefit of all **Business, Human Rights and the Environment: The Evolving Agenda** Chiara Macchi, 2022-04-08 More than ten years after the adoption of the UN Guiding Principles on Business and Human Rights this book critically reviews the achievements limits and next frontiers of business and human rights following the protect respect remedy trichotomy The UN Guiding Principles acted as a catalyst for hitherto unprecedented regulatory and judicial developments The monograph by Macchi proposes a functionalist reading of the state's duty to regulate the transnational activities of corporations in order to protect human rights and adopts a holistic approach to the corporate responsibility to respect arguing that environmental and climate due diligence are inherent dimensions of human rights due diligence In the volume emerging legislations are assessed on mandatory human rights and environmental due diligence as well as the potential and limitations of a binding international treaty on business and human rights The book also reviews groundbreaking litigation against transnational corporations such as *Lungowe v Vedanta* or *Milieudefensie v Shell* for their human rights and climate change impacts The book is primarily targeted at academic and non academic legal experts as well as at researchers and students looking at business and human rights issues through the lenses of legal studies particularly international law and European law political sciences business ethics and management Additionally it should also find a readership among practitioners working in the public or private sector consultants CSR officers legal officers etc willing to familiarize themselves with the expanding areas of liability financial and reputational risks connected to the social and environmental impacts of global supply chains Chiara Macchi is currently Lecturer in Law at Wageningen University Research in The Netherlands **Low-Power Wireless Communication Circuits and Systems** Kiat Seng Yeo, Kaixue Ma, 2018-05-03 The increasing demand for extremely high data rate communications has urged researchers to develop new communication systems Currently wireless transmission with more than one Giga bits per second Gbps data rates is

becoming essential due to increased connectivity between different portable and smart devices To realize Gbps data rates millimeter wave MMW bands around 60 GHz is attractive due to the availability of large bandwidth of 9 GHz Recent research work in the Gbps data rates around 60 GHz band has focused on short range indoor applications such as uncompressed video transfer high speed file transfer between electronic devices and communication to and from kiosk Many of these applications are limited to 10 m or less because of the huge free space path loss and oxygen absorption for 60 GHz band MMW signal This book introduces new knowledge and novel circuit techniques to design low power MMW circuits and systems It also focuses on unlocking the potential applications of the 60 GHz band for high speed outdoor applications The innovative design application significantly improves and enables high data rate low cost communication links between two access points seamlessly The 60 GHz transceiver system on chip provides an alternative solution to upgrade existing networks without introducing any building renovation or external network laying works

RENEWABLE ENERGY TECHNOLOGIES With the goal of accelerating the growth of green energy utilization for the sustainability of life on earth this volume written and edited by a global team of experts goes into the practical applications that can be utilized across multiple disciplines and industries for both the engineer and the student Green energy resources are gaining more attention in academia and industry as one of the preferred choices for sustainable energy conversion Due to the energy demand environmental impacts economic needs and social issues green energy resources are being researched developed and funded more than ever before Researchers are facing numerous challenges but there are new opportunities waiting for green energy resource utilization within the context of environmental and economic sustainability Efficient energy conversion from solar wind biomass fuel cells and others are paramount to this overall mission and the success of these efforts Written and edited by a global team of experts this groundbreaking new volume from Scrivener Publishing presents recent advances in the study of green energy across a variety of fields and sources Various applications of green energy resources modeling and performance analysis and grid integration aspects of green energy resources are considered Not only laying out the concepts in an easy to understand way but this team offers the engineer scientist student or other professional practical solutions to everyday problems in their daily applications Valuable as a learning tool for beginners in this area as well as a daily reference for engineers and scientists working in these areas this is a must have for any library

Springer Handbook of Augmented Reality Andrew Yeh Ching Nee, Soh Khim Ong, 2023-01-01 The Springer Handbook of Augmented Reality presents a comprehensive and authoritative guide to augmented reality AR technology its numerous applications and its intersection with emerging technologies This book traces the history of AR from its early development discussing the fundamentals of AR and its associated science The handbook begins by presenting the development of AR over

the last few years mentioning the key pioneers and important milestones It then moves to the fundamentals and principles of AR such as photogrammetry optics motion and objects tracking and marker based and marker less registration The book discusses both software toolkits and techniques and hardware related to AR before presenting the applications of AR This includes both end user applications like education and cultural heritage and professional applications within engineering fields medicine and architecture amongst others The book concludes with the convergence of AR with other emerging technologies such as Industrial Internet of Things and Digital Twins The handbook presents a comprehensive reference on AR technology from an academic industrial and commercial perspective making it an invaluable resource for audiences from a variety of backgrounds

Occupational Safety and Hygiene VI Pedro M. Arezes, João Santos Baptista, Monica P. Barroso, Paula Carneiro, Patrício Cordeiro, Nelson Costa, Rui B. Melo, A. Sergio Miguel, Gonçalo Perestrelo, 2018-03-14
Occupational Safety and Hygiene VI collects recent papers of selected authors from 21 countries in the domain of occupational safety and hygiene OSH The contributions cover a wide range of topics including Occupational safety Risk assessment Safety management Ergonomics Management systems Environmental ergonomics Physical environment Construction safety and Human factors Occupational Safety and Hygiene VI represents the state of the art on the above mentioned domains and is based on research carried out at universities and other research institutions Some contributions focus more on practical case studies developed by OSH practitioners within their own companies Hence the book provides practical tools and approaches currently used by OHS practitioners in a global context
