**Abstract**— This document gives formatting instructions for authors preparing papers for publication in the Proceedings of an IEEE conference. The authors must follow the instructions given in the document for the papers to be published. You can use this document as both an instruction set and as a template into which you can type your own text.

**Keywords**— Put your keywords here, keywords are separated by comma.

## I. INTRODUCTION

This document is a template. An electronic copy can be downloaded from the conference website. For questions on paper guidelines, please contact the conference publications committee as indicated on the conference website. Information about final paper submission is available from the conference website.

## II. PAGE LAYOUT

An easy way to comply with the conference paper formatting requirements is to use this document as a template and simply type your text into it.

### A. Page Layout

Your paper must use a page size corresponding to A4 which is 210mm (8.27") wide and 297mm (11.69") long. The margins must be set as follows:

- Top = 19mm (0.75")
- Bottom = 43mm (1.69")
- Left = Right = 14.32mm (0.56")

Your paper must be in two column format with a space of 4.22mm (0.17") between columns.

## III. PAGE STYLE

All paragraphs must be indented. All paragraphs must be justified, i.e. both left-justified and right-justified.

### A. Text Font of Entire Document

The entire document should be in Times New Roman or Times font. Type 3 fonts must not be used. Other font types may be used if needed for special purposes.

Recommended font sizes are shown in Table 1.

### B. Title and Author Details

Title must be in 24 pt Regular font. Author name must be in 11 pt Regular font. Author affiliation must be in 10 pt Italic. Email address must be in 9 pt Courier Regular font.

TABLE 1  
Font Sizes for Papers

Font Size	Appearance (in Times New Roman or Times)		
	Regular	Bold	Italic
8	table caption (in Small Caps), figure caption, reference item		reference item (partial)
9	author email address (in Courier), cell in a table	abstract body	abstract heading (also in Bold)
10	level-1 heading (in Small Caps), paragraph		level-2 heading, level-3 heading, author affiliation
11	author name		
24	title		

All title and author details must be in single-column format and must be centered.

Every word in a title must be capitalized except for short minor words such as "a", "an", "and", "as", "at", "by", "for", "from", "if", "in", "into", "on", "or", "of", "the", "to", "with".

Author details must not show any professional title (e.g. Managing Director), any academic title (e.g. Dr.) or any membership of any professional organization (e.g. Senior Member IEEE).

To avoid confusion, the family name must be written as the last part of each author name (e.g. John A.K. Smith).

Each affiliation must include, at the very least, the name of the company and the name of the country where the author is based (e.g. Casual Productions Pty Ltd, Australia).

Email address is compulsory for the corresponding author.

### C. Section Headings

No more than 3 levels of headings should be used. All headings must be in 10pt font. Every word in a heading must be capitalized except for short minor words as listed in Section III-B.

1) *Level-1 Heading*: A level-1 heading must be in Small Caps, centered and numbered using uppercase Roman

Trustworthy Cloud Computing Vladimir O. Safonov, 2016-01-29 Introduces the topic of cloud computing with an emphasis on the trustworthiness of cloud computing systems and services This book describes the scientific basis of cloud computing explaining the ideas principles and architectures of cloud computing as well the different types of clouds and the services they provide The text reviews several cloud computing platforms including Microsoft Azure Amazon Oracle Google HP IBM Salesforce and Kaavo The author addresses the problem of trustworthiness in cloud computing and provides methods to improve the security and privacy of cloud applications The end of chapter exercises and supplementary material on the book's companion website will allow readers to grasp the introductory and advanced level concepts of cloud computing Examines cloud computing platforms such as Microsoft Azure Amazon Oracle Google HP IBM Salesforce and Kaavo Analyzes the use of aspect oriented programming AOP for refactoring cloud services and improving the security and privacy of cloud applications Contains practical examples of cloud computing test questions and end of chapter exercises Includes presentations examples of cloud projects and other teaching resources at the author's website <http://www.vladimirsafonov.org/cloud> Trustworthy Cloud Computing is written for advanced undergraduate and graduate students in computer science data science and computer engineering as well as software engineers system architects system managers and software developers new to cloud computing Technical Communication with 2009 MLA and 2010 APA Updates Mike Markel, 2010-06-15 Click here to find out more about the 2009 MLA Updates and the 2010 APA Updates Comprehensive and truly accessible Technical Communication guides students through planning drafting and designing the documents that will matter in their professional lives Known for his student friendly voice and eye for technology trends Mike Markel addresses the realities of the digital workplace through fresh samples and cases practical writing advice and a companion Web site TechComm Web that continues to set the standard with content developed and maintained by the author The text is also available in a convenient affordable e book format **The Vacuum Interrupter** Paul G. Slade, 2020-11-29 Title The Vacuum Interrupter Theory Design and Application Shelving guide Electrical Engineering Dr Paul Slade draws from his nearly six decades of active experience to develop this second edition of The Vacuum Interrupter Theory Design and Application This book begins by

discussing the design requirements for high voltage vacuum interrupters and then the contact requirements to interrupt the vacuum arc It then continues by describing the various applications in which the vacuum interrupter is generally utilized Part 1 of this book begins with a detailed review of the vacuum breakdown process It continues by covering the steps necessary for the design and the manufacture of a successful vacuum interrupter The vacuum arc is then discussed including how it is affected as a function of current An overview of the development and use of practical contact materials along with their advantages and disadvantages follows Contact designs that are introduced to control the high current vacuum arc are also analyzed Part 2 on application begins with a discussion of the arc interruption process for low current and high current vacuum arcs It examines the voltage escalation phenomenon that can occur when interrupting inductive circuits The occurrence of contact welding for closed contacts subjected to the passage of high currents and for contacts when closing on high currents is explored The general requirements for the successful manufacture and testing of vacuum circuit breakers is then presented The general application of vacuum interrupters to switch load currents especially when applied to capacitor circuits is also given The interruption of high short circuit currents is presented along with the expected performance of the two major contact designs Owing to the ever increasing need for environmentally friendly circuit protection devices the development and application of the vacuum interrupter will only increase in the future At present the vacuum circuit breaker is the technology of choice for distribution circuits 5kV to 40 5kV It is increasingly being applied to transmission circuits 72 5kV to 242kV In the future its application for protecting high voltage DC networks is assured Audience This is a practical source book for engineers and scientists interested in studying the development and application of the vacuum interrupter Research scientists in industry and universities Graduate students beginning their study of vacuum interrupter phenomena Design engineers applying vacuum interrupters in vacuum switches vacuum contactors vacuum circuit breakers and vacuum contactors It provides a unique and comprehensive review of all aspects of vacuum interrupter technology for those new to the subject and for those who wish to obtain a deeper understanding of its science and application Scientists and engineers who are beginning their research into vacuum breakdown and aspects of the vacuum arc will find the extensive bibliography and phenomenological descriptions to be a useful introduction

**Interoperable Database Systems (DS-5)** D.K. Hsiao,E.J. Neuhold,R. Sacks-Davis,2014-05-23 The proliferation of databases within organizations have made it imperative to allow effective sharing of information from these disparate database systems In addition it is desirable that the individual systems must maintain a certain degree of autonomy over their data in order to continue to provide for their existing applications and to support controlled access to their information Thus it becomes necessary to develop new techniques and build new functionality to interoperate these autonomous database systems and to integrate them into an overall information system Research into interoperable database systems has advanced substantially over recent years in response to this need The papers presented in this volume cover a wide spectrum of both theoretical and pragmatic issues related to the semantics of interoperable database systems Topics covered include techniques to support the translation between database schema and between database languages object oriented

frameworks for supporting interoperability of heterogeneous databases knowledge base integration and techniques for overcoming schematic discrepancies in interoperable databases In addition there are papers addressing issues of security transaction processing data modelling and object identification in interoperable database systems It is hoped the publication will represent a valuable collective contribution to research and development in the field for database researchers implementors designers application builders and users alike
