**Reimagining Nigeria's Educational System** Joseph A. Balogun, 2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country's low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate students teachers and their school's performance This book argues that the poor quality of education and low ranking of Nigeria's educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to

*House of Commons - Committee of Public Accounts: Emergency Admissions to Hospital - HC 885* Great Britain: Parliament: House of Commons: Committee of Public Accounts, Margaret Hodge, 2014-03-04 Nearly one fifth of consultant posts in emergency departments were either vacant or filled by locums in 2012 Neither the Department nor NHS England have a clear strategy to tackle the shortage of A E consultants and there is too much reliance on temporary staff to fill gaps The Committee raised the possibility of paying consultants more to work at struggling hospitals Greater use in A E of consultants from other departments could also be made or mandate that all trainee consultants spend time in A E or make A E positions more attractive through improved terms and conditions The slow introduction of round the clock consultant cover in hospitals which will not be in place before the end of 2016 17 is also having a negative impact More people die as a result of being admitted at the weekend when fewer consultants are in A E Changing this relies on the British Medical Association and NHS Employers negotiating a more flexible consultants contract and neither the Department nor NHS England has direct control over the timescale or details of these negotiations Hospitals GPs and community health services all have a role to play in reducing emergency admissions but financial incentives to make this happen are not in place While hospitals get no money if patients are readmitted within 30 days there are no financial incentives for community and social care services to reduce emergency admissions Both the Department of Health and NHS England struggled to explain to us who is ultimately accountable for the efficient delivery of local A E services **Historical Dictionary of Nigeria** Toyin Falola, Ann Genova, Matthew M.
