Breakthrough Problem Solving with Action Learning Michael Marquardt, Roland K. Yeo, 2012-05-16 Breakthrough Problem Solving with Action Learning explores why and how action learning groups have been so successful and creative in solving complex problems The text begins by briefly reviewing the theories that undergird the effectiveness of action learning philosophically situating readers and pointing them in the direction of related academic works that they may wish to explore It then turns to stories of how organizations have employed action learning in solving specific often encountered business problems These cases not only serve as real world models for how action learning can be successfully employed but also offer inspiration and potential starting points and guidelines for other businesses that face similar problems The book concludes with a cross case analysis that pinpoints the ingredients necessary for breakthrough problem solving via action learning

The Essential Guide to Flash CS4 Cheridan Kerr, Jonathan Keats, 2009-10-13 If you're familiar with the basics of Flash then The Essential Guide to Flash CS4 will take you further in all aspects of the application animation sound 3D inverse kinematics the drawing tools ActionScript and much more This book takes all the good bits of Flash CS4 and demonstrates them in methodical and intuitive exercises full of hints and tips for streamlining the creative process Jump straight into Flash CS4 and start working on real life examples that you can customize to suit your needs Demystifies Flash CS4 explaining new features deep diving through old favorites Streamlines the production of cutting edge Flash CS4 animations and applications Provides a unique commercial perspective in compelling Flash productions This book is for intermediate Flash CS4 users as

well as the more advanced user who wants to learn about using Flash CS4's awesome new capabilities such as motion tweening and kinematics poses. Each chapter has a number of exercises that contribute to an overall project. The exercises are fun and compelling and allow you to place your own creative stamp on them while still following the steps to completion. The final chapter focuses on bringing the exercise output together in an overall campaign consisting of a website featuring advanced flash components and advertising banners. An underlying theme of the book is marketing a website online. It discusses industry standards for banner campaigns: banner weight, frames per second, etc. effective website marketing techniques and delves into search engine optimization and search engine marketing.

Flash Remoting: The Definitive Guide Tom Muck, 2003-09-23. Flash Remoting MX lets developers easily integrate rich Macromedia Flash content with applications that are built using Macromedia ColdFusion MX, Microsoft .NET, Java, PHP, or SOAP-based web services. The result is complex client-server applications that more closely resemble desktop applications than traditional web pages. Gone is the click-wait-reload approach of HTML. Your web application uses Flash as the front end while Flash Remoting handles the communication behind the scenes with the application server. All the end user knows is that it's fast and flexible. The potential uses for Flash Remoting are endless. Flash Remoting: The Definitive Guide will help you understand this breakthrough technology and use it to build your own Rich Internet Applications (RIAs). Build applications that connect to a database, file system, or other server-side technologies. Or use Flash Remoting to create online stores that feature catalogs and shopping cart systems, sound and video clip libraries, banner ads with built-in shopping carts, click-through tracking, and site search capabilities. New controls that can be used in place of HTML extensions to Flash, Dreamweaver, Fireworks, and more. Front ends to databases for administrators. The book begins with Flash Remoting basics, setup, installation, and an introduction to its underlying concepts. Next, you'll explore the Flash's User Interface components as they relate to Flash Remoting. Then you'll gain insights into Flash Remoting internals and the Remoting API. The book is rich with examples that you will be able to run on your own system. The next section focuses on the server-side environment that you'll use for your applications. Individual chapters cover Flash Remoting with ColdFusion, Server-Side ActionScript, Java, ASP, .NET, and PHP. The last section covers more advanced Flash Remoting techniques such as calling web services from Flash, Remoting extending objects, and UI controls, best practices, and debugging. Plus, there is a detailed chapter demonstrating a real-world application. The book concludes with a Flash Remoting API reference. Developers who are looking to create Rich Internet Applications with Flash will find Flash Remoting: The Definitive Guide indispensable.

Flash Out of the Box Robert Hoekman, Jr., 2004-11-18. If you believe the sky really is the limit when it comes to creating unparalleled user experiences and applications for the Web, then Macromedia Flash MX is sure to be your tool of choice. With Flash, you can integrate video, text, audio, and graphics into distinctive and compelling web content, stunningly interactive and expressive user interfaces, and rich applications for the Internet. Flash is all about helping you dramatically enhance the user experience. And Flash Out of the Box is all about helping

you think outside of the box to get there first by diving into the Flash box and then becoming intimately acquainted with every nook and cranny of it In *Flash Out of the Box* you ll follow and work with a simple box through a day in the life style journey You ll study use abuse and transform the box as you move through exercises that teach you the basics of Flash and much more in an entertaining unforgettable task oriented fashion You ll learn to animate work with video load external assets draw mask modularize and many other things that will be essential as you move into more advanced techniques with other books It s just you Flash and the box mastering each technique along the way and adding others in a fashion that will let you practice and learn simultaneously Most Flash tutorials you ve looked at are tool centric focusing on Flash s individual features and how to use them an approach that can quickly become tedious whereas this innovative engaging and motivating book is uniquely user centric That means it concentrates on you and what you want and need to learn Each successive lesson anticipates and builds upon your needs capabilities and questions as you evolve from Flash beginner to Flash master Written in a fun and conversational tone the highly accessible *Flash Out of the Box* makes learning Flash MX 2004 intuitive logical and most of all fun

Fearless Flash Claudia McCue,2010-10-04 InDesign CS5 opens the door to a new world with the addition of exciting animation tools and deeper multimedia support It s now a viable interactive authoring tool Designers want to create engaging interactive content but may resist making the transition from page layout to timeline based thinking But now it s much easier InDesign CS5 s new interactive features are intuitive and easy to learn And once they ve mastered those tools in the familiar world of InDesign they ll find that Flash isn t scary after all Designers already know how to add text graphics and geometric shapes to a page in InDesign it s a short walk to adding interactive features Before they know it they re creating Flash content All of Peachpit s eBooks contain the same content as the print edition You will find a link in the last few pages of your eBook that directs you to the media files Helpful tips If you are able to search the book search for Where are the lesson files Go to the very last page of the book and scroll backwards You will need a web enabled device or computer in order to access the media files that accompany this ebook Entering the URL supplied into a computer with web access will allow you to get to the files Depending on your device it is possible that your display settings will cut off part of the URL To make sure this is not the case try reducing your font size and turning your device to a landscape view This should cause the full URL to appear
