Information on individual profiles for language and cognitive skills, personality, and social behavior is available from the Big Five Inventory (BFI) and the Big Five Inventory-Short Form (BFI-50). The BFI is a 44-item self-report questionnaire that measures the five major dimensions of personality: openness, conscientiousness, extraversion, agreeableness, and neuroticism. The BFI-50 is a shorter version of the BFI, consisting of 50 items. Both questionnaires are available in English and Spanish. The BFI and BFI-50 are available for free download from the Center for Open Science (<http://www.centerforopenscience.org>).
