

Gun Control in America Essay

Gun control recently has become a more serious problem in the eyes of the government. It is true that guns kill people, but so do bombs and car crashes. Guns do not shoot themselves, someone has pull the trigger. The problem with guns is not that they exist, but that people have started to misuse them more and more. Taking away guns would cause more problems than keeping them would. Guns are not just used for harming people, hunting also requires guns. Hunting is a very popular hobby in America and taking them away would cause a massive uproar.

The second amendment states that we have the right to bear arms, by taking guns away the government would be taking away one our basic human rights. Also, guns are misused by criminals; these people will just find a new way to hurt others if the guns are taken away. I do not believe guns should be taken away from us, rather there should be stricter laws on who can buy guns. Guns are only seen as bad negative things that need to be banned, but people seem to forget that guns were first invented to protect ourselves from enemies. Now just because people want to use them for bad reasons, the government wants to take them away from everyone.

By taking them away however, you are also taking away some peoples hobby. Hunting requires guns and is a very popular hobby. Over 12.5 million people in this country hunt ("Hunting"). That means if the government takes away guns from over 12 million people. That would not go over well with the people who like to hunt. Hunters also do not just use guns to hunt animals, Gary Lewis an avid hunter and outdoors man said "I thought about my dad teaching me how to shoot a .22 rifle. I thought about the dark, lonely night when the presence of a gun kept me safe when there was no one else to come to my aid.

Then I thought about the men and women who have paid with their lives to earn and keep freedom for our republic. " He sees guns as a way to protect our country and to keep us safe at night, not to kill or harm people. Guns are a right given to us at the founding of our country. The second amendment says that we have the right to bear arms. This right was given when the constitution was written and has been around since the founding of our country. Taking away this right is wrong and would go against what the founding fathers created so many years ago.

Some think this right is only for military use and not for the common person but "the court explains that all citizens are the militia; the Second Amendment is an individual right, just like every other right protected in the Bill of Rights, and is independent of membership in any organized group or military unit" (MacBrodaigh). This is saying that the people of America are the militia and just because they do not openly fight for our country does not mean they do not get the right to protect themselves and their families from harmful persons. Guns are only misused by criminals, people who break the
