Cryptographic Hardware and Embedded Systems -- CHES 2012 Emmanuel Prouff, Patrick R. Schaumont, 2012-09-05

This book constitutes the proceedings of the 14th International Workshop on Cryptographic Hardware and Embedded Systems CHES 2012 held in Leuven Belgium in September 2012. The 32 papers presented together with 1 invited talk were carefully reviewed and selected from 120 submissions. The papers are organized in the following topical sections: intrusive attacks and countermeasures, masking, improved fault attacks and side channel analysis, leakage resiliency and security analysis, physically unclonable functions, efficient implementations, lightweight cryptography, we still love RSA and hardware implementations.

108-1 Hearings: Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations For 2004, Part 1, April 10, 2003, *, 2003

Virtual Reality in Manual Order Picking Jan-Karl

Knigge, 2021-08-30. The introduction of consumer level head mounted devices (HMDs) has led to a major drop in the application costs of virtual reality (VR), making the technology available for a wide range of users. To understand if VR HMDs can be used for planning and training in the context of manual order picking, this thesis provides the results of a large scale randomized controlled study in which order picking has been compared between a virtual and a real environment. The results imply that VR HMDs can indeed be used by manufacturers and warehouse operators in a rack planning process if the reduction of searching times or the perceived workload is in focus. Additionally, the findings enable the use of VR HMDs for scientific research on human centred rack design. Finally, the thesis highlights the usability of VR HMDs for training manual order picking activities.

The Handbook of Banking Technology Tim

Walker, Lucian Morris, 2021-05-24. Competitive advantage in banking comes from effective use of technology. The Handbook of Banking Technology provides a blueprint for the future of banking with deep insight into the technologies at the heart of the industry. The rapid evolution of IT brings continual change and demand for investment, yet keeping pace with these changes has become an essential part of doing business. This book describes how banks can harness the power of current and upcoming technology to add business value and gain a competitive advantage. You will learn how banks are using technology to drive business today and which emerging trends are likely to drive the evolution of banking over the next decade. Regulation is playing an ever increasing role in banking and the impact of regulatory change on technology and the management of it are discussed while mandatory changes put pressure on many of our high street banking brands. Their ability to adapt and utilise technology will have a fundamental impact on their success in the rapidly changing marketplace. Technology costs can amount to 15 per cent or more of operational costs and bank leaders need to be able to make informed decisions about technology investments in light of the potential benefits. This book explores the depth and breadth of banking technology to help decision makers stay up to date and drive better business. Assess your current technology against the new banking

paradigms Procure the systems needed to protect the bottom line Implement newer technology more efficiently and effectively Ensure compliance and drive value with appropriate technology management Technological change is driven by mass adoption of new channels innovation from new entrants and by banks themselves as a means of increasing revenue and reducing costs The Handbook of Banking Technology offers a comprehensive look at the role of technology in banking and the impact it will have in the coming years

Passive and Active Measurement Arvind Krishnamurthy, Bernhard Plattner, 2010-04-01 The 2010 edition of the Passive and Active Measurement Conference was the 11th of a series of successful events Since 2000 the Passive and Active Measurement PAM conference has provided a forum for presenting and discussing innovative and early work in the area of Internet measurements PAM has a tradition of being a workshop like conference with lively discussion and active participation from all attendees This event focuses on research and practical applications of network measurement and analysis techniques This year's conference was held at ETH Zurich Switzerland PAM 2010 attracted 79 submissions Each paper was carefully reviewed by at least three members of the Technical Program Committee The reviewing process led to the acceptance of 23 papers The papers were arranged in nine sessions covering the following areas routing transport protocols mobile devices topology measurement infrastructure characterizing network usage analysis techniques traffic analysis and the Web We are very grateful to Endace Ltd New Zealand Cisco Systems Inc USA armasuisse Switzerland and the COST Action TMA whose sponsoring allowed us to keep registration costs low and to offer several travel grants to PhD students We are also grateful to ETH Zurich for sponsoring PAM as a host
