Iran News Nuclear Report September:

Understanding the Volatile and Dangerous Middle East Steven Carol, 2019-09-26 The Middle East can be bewildering which is why we need to connect the dots that pull together the political economic diplomatic military cultural and religious pieces of the puzzle Professor Steven Carol slashes through the confusion with a topical approach focusing on key issues such as the geographic features of the Middle East demographics of the region the influence of Islam political processes shifting alliances war in the region and the need for security He also takes a careful look at perpetual negotiations attempts to secure peace and the role that the media play in how we view the region His goal to clarify the confusing nature of Middle East affairs and to combat the mistaken beliefs misrepresentations and outright fabrications about the region In a bid to reclaim the truth he shares basic principles relying on factual supporting evidence to prove their validity Seventy eight maps and numerous tables make understanding complex topics easier Whether you re a student educator bureaucrat or politician you ll find insights based on facts in *Understanding the Volatile and Dangerous Middle East*

North Korean Military Proliferation in the Middle East and Africa Bruce E. Bechtol Jr., 2018-09-07 North Korea has posed a threat to stability in Northeast Asia for decades Since Kim Jong un assumed power this threat has both increased and broadened Since 2011 the small isolated nation has detonated nuclear weapons multiple times tested a wide variety of ballistic missiles expanded naval and ground systems that threaten South Korea and routinely employs hostile rhetoric Another threat it poses has been less recognized North Korea presents a potentially greater risk to American interests by exporting its weapons systems to other volatile regions worldwide In *North Korean Military Proliferation in the Middle East and Africa* Bruce E Bechtol Jr analyzes relevant North Korean military capabilities what arms the nation provides and to whom how it skirts its sanctions and how North Korea s activities can best be contained He traces illicit networks that lead to state and nonstate actors in the Middle East including Syria Iran Hezbollah and Hamas and throughout Africa including at least a dozen nations The potential proliferation of nuclear and chemical weapons technology and the vehicles that carry it including ballistic missiles and artillery represent a broader threat than the leadership in Pyongyang Including training and infrastructure support North Korea s profits may range into the billions of dollars all concealed in illicit networks and front companies so complex that the nation struggles to track and control them Bechtol not only presents an accurate picture of the current North Korean threat he also outlines methodologies that Washington and the international community must embrace in order to contain it

Imperial Designs Deepak Tripathi, 2013 Since the age of Alexander the Great waves of foreign armies have invaded the Middle East and South Asia to plunder their vast treasures In *Imperial Designs* Deepak Tripathi offers a powerful and unique analysis of how this volatile region has endured the manipulation and humiliation of war especially since World War I and the fall of the Ottoman Empire He argues that these foreign invasions and the consequent ignominy of the defeated peoples of the regions have had far reaching consequences Over the centuries again and again the conquered peoples have been left

helpless their shame on display The victims collective frustration has strengthened their will to resist and avenge the wrongs done to themOCOall according to their own values and in their own time Displaying a keen awareness of Middle Eastern and South Asian cultures Tripathi argues that this enduring theme resonates throughout the region s history and informs the present Referring to declassified official documents and scholarly works this book should be read by scholars policymakers and concerned citizens for it tells us how the shame of defeat radicalizes nations and societies and often makes future conflict inevitable **The Geopolitics of Iran** Francisco José B. S. Leandro, Carlos Branco, Flavius Caba-Maria, 2021-09-13

This book assesses Iran s role in contemporary geopolitics In particular it examines three main intertwining circles Iran s development and political challenges its relationships with neighbouring countries as well as its relations with the major global powers China the European Union Russia and the United States With contributions from over 20 authors the book spans such critical aspects of contemporary geopolitics as modern history natural resources the economy the social political context and strategic thinking Particular focus is placed on Iran s relations with its neighbours Afghanistan Iraq Israel Pakistan and the Persian Gulf States Furthermore the book offers both a bilateral and multilateral dimension on how nuclear sanctions imposed on Iran have impacted its strategic planning from the economic and military perspectives Iran's Nuclear Diplomacy Bernd Kaussler, 2013-07-31 This book examines the dynamics of relations and the substance of the negotiations between the international community and Iran over the latter s nuclear programme Iran s nuclear programme and the alleged threat to international peace and security remains one of the most important issues in the United States as well as in European foreign affairs In the US Iran has dominated the political discourse for over three decades and Europe has spent considerable political capital in finding a diplomatic solution to Iran s nuclear ambitions While relations between both states remain subject to mutual hostility the EU remains a channel of communication and since 2003 has maintained a multilateral negotiation framework By and large the narrative on nuclear negotiations is dominated by constructivist and realist literature portraying relations between the US and Iran in ideological terms as a prolonged struggle for regional influence Embedded within conflict resolution and diplomatic theory this work attempts to bridge this gap Drawing upon primary documents and interviews the text examines negotiation behaviour and strategies and tools of statecraft as well as analysing technical aspects of initiatives concerning the nuclear programme This book will be of much interest to students of nuclear proliferation international diplomacy Middle Eastern politics security studies and IR in general *The Brief Against Obama* Hugh Hewitt, 2012-06-26 Voters can do nothing until they have the facts the hard cold true facts and that is what Hugh Hewitt provides in THE BRIEF AGAINST OBAMA The Rise Fall Epic Fail of the Hope Change Presidency Hugh makes the case that Obama s has been a disastrous presidency a fiasco in fact and reveals the president to be a wholly unprepared and incapable of learning ideologue whose nearly every move has been wrong and whose almost every decision has been ill conceived and poorly executed But for the SEALs dispatch of bin Laden and the military s removal of al Awalki and other

terrorists whom the president still seeks to remove from Gitmo to domestic courts in the United States Obama would be wholly without anything to claim as an achievement of his time in the Oval Office In addition to the monumental failures of Obamacare the soaring unemployment rate the 2009 stimulus and the massive debt Hugh Hewitt examines the scores and scores of broken promises and fraudulent forecasts dozens of dodges and hundreds of disastrous innovations that President Obama has inflicted on America It has been a reign of incompetency not before seen in the country ever According to Hewitt President Obama is not just a failed president but the most spectacularly failed president of modern times and Hewitt's precise and lawyerly indictment is made to help the American people see what has happened and what desperately needs to be done in the upcoming election The path for the American people is clear and urgent Barack Obama mustn't be allowed to run the country into the ground as the Commander in Chief for four more years

Iranian Foreign Policy during Ahmadinejad Maaike Warnaar, 2013-11-26 Written for scholars and practitioners puzzled by Iran's foreign

policy choices this book argues that Iran's foreign policy behavior is best understood in the context of the regime's foreign policy ideology which is rooted in a conception of Iran as a nation changed by the 1979 Revolution and an example to other nations in a changing world Insight Turkey 2018 - Spring 2018 (Vol. 20, No.2) , The Gulf is a sub region consisting of Saudi Arabia and five small states namely Kuwait Qatar Oman the United Arab Emirates and Bahrain This sub region emerged after the British recognized the independence of the above mentioned small entities between 1961 and 1971 Having an abundant amount of natural resources i.e oil and natural gas the Gulf States are among the richest countries in the world therefore they do not share the poverty and political instability widely found in the Middle East The Gulf is a sub region consisting of Saudi Arabia and five small states namely Kuwait Qatar Oman the United Arab Emirates and Bahrain This sub region emerged after the British recognized the independence of the above mentioned small entities between 1961 and 1971 Having an abundant amount of natural resources i.e oil and natural gas the Gulf States are among the richest countries in the world therefore they do not share the poverty and political instability widely found in the Middle East The sub region was institutionalized with the establishment of the Gulf Cooperation Council GCC in 1981 as a result of three important regional developments the Iranian Islamic Revolution in 1979 the Soviet invasion of Afghanistan in 1979 and the outbreak of the Iran Iraq war in 1980 The GCC was mainly designed as a security institution to counter regional threats emanating from the other side of the Persian Gulf namely Iran However after the invasion of Kuwait by Saddam's Iraq the Gulf States became alarmed and asked the United States to protect their political independence against all regional threats After the collapse of the Cold War the Gulf States initiated a process of regional integration and significant steps were taken to achieve a monetary and economic union At the end of the first decade of the 21st century the Gulf States decided to introduce al khaleeji as the common currency However this promising process was halted with the eruption of the Arab uprisings and revolutions The Arab uprisings have imposed the greatest threat to the unity of the Gulf For the first time in their history the Gulf States began to be challenged politically from not only external threats but also internal dynamics The process of sweeping changes throughout the Middle East instigated great concern in the Gulf the most pro status quo states in the region During the first two years 2011 2013 the Gulf States tried to follow a defensive policy against the powers of change They strived to keep the wave of uprisings away from the Gulf After they had overcome their shock and confusion they began to take initiatives to intervene into the regional crises Some of the Gulf countries especially Saudi Arabia and the UAE organized a military coup against the region's first and only democratically elected government of Muhammad Morsi placing Egypt in an economically and politically vulnerable position Furthermore these two countries interfered into the domestic affairs of other regional states in crisis such as Libya Yemen and Lebanon They succeeded in turning the Arab Spring into an Arab Winter by eliminating de legitimizing and weakening the carriers of reform the Muslim Brotherhood and its affiliates throughout the Arab world Thus indirectly they suppressed the moderate non state actors in favor of radical actors and terrorist groups such

as ISIS and al Qaeda Saudi Arabia and the UAE went further and tried to redesign the region through their ambitious regional policies Encouraged by the United States and Israel they gained the support from countries that are dependent on their petro dollars such as Bahrain Egypt and Jordan These two states attempted to lead both the Arab and Muslim worlds and therefore mobilized their only asset billions of petro dollars to buy influence in the region In order to be able to lead the Arab world Saudi Arabia and the UAE had to delegitimize the Muslim Brotherhood and affiliated groups and political parties the main carriers of popular demonstrations throughout the Arab world Therefore they declared all these political groups and social movements as terrorist organizations They even attempted to ostracize those regional countries i e Turkey and Qatar that support these popular movements while at the same time forcing other countries to support their regional policies The first target was Qatar the Arab state most open to liberal values and diversity In 2014 Saudi Arabia and the UAE forced Qatar to cut its relations with regional non state actors such as the Brotherhood and Hamas but the Obama Administration did not allow Riyadh and Abu Dhabi to instigate a crisis However after Trump came to power these two states reintroduced the crisis and imposed their blockade against Qatar Nevertheless with the strong support of Turkey and Iran two significant regional powers the policy of Saudi Arabia and the UAE has failed As a result Riyadh and Abu Dhabi have shattered the unity of not only the Arabs but also that of the Gulf While Oman maintained its neutral position by following an active neutrality policy and playing a mediating role Kuwait tried to prevent the breakup of the Gulf region Although it has not declared so publicly Kuwait rejects the regional design attempts by the Saudi and Emirati governments To lead the Muslim world Saudi Arabia led the foundation of the so called Islamic Military Alliance comprising of more than 50 nations However it became clear in a short time period that this attempt was not a real Islamic alliance to bring stability to the region but a measure to fortify a Sunni bloc against Iranian regional expansionism That is Saudi Arabia tried to utilize the Sunni Islamic understanding for its regional policies It is not difficult to claim that Saudi Arabia and the UAE will not be able to realize this project The possibility of ending up with the disillusionment of the Arab and Muslim streets and alienation of some Sunni countries is quite high Overall the project which has been executed with the support of the U S and Israel is an attempt to deepen the sectarian strife between Shias and Sunnis and it will not bring political stability or peace to the region In conclusion in order to protect themselves against regional threats and to establish a balance of power against other regional powers the small Gulf States must form military alliances and political institutions with other regional countries First they need to maintain the unity of the Gulf Second Riyadh and Abu Dhabi should encourage other regional actors to contribute to the regional stability Saudi Arabia and the UAE have to end the Qatari crisis a lose lose crisis manufactured by these two states since it is undermining the sub region s security and economic outlook Third the Gulf States must keep the sub region as the island of political and economic stability in the chaotic Middle East and contribute to the gradual and peaceful reconstruction of the region To achieve this objective the Gulf States must stop using conflicting political discourses Considering all these

important developments the Gulf region has attracted a lot of attention among the scholars and Insight Turkey through this special issue aims to cover some of the main topics such as the Qatari crisis the rise of sectarianism the foreign policies of the pro status quo countries and the relations of these states with Turkey The situation in the Gulf region gets more complicated as time passes and the division between blocks has started to become deeper Ufuk Uluta and Burhanettin Duran provide a comprehensive analysis of all of the actors including here global and regional ones which are currently included in the Gulf affairs Without any doubt the Qatari crisis has played a decisive role in manifesting the existing regional rifts In the light of this Kristian Coates Ulrichsen and Marwan Kabalan focus on this crisis which started with the blockade of Qatar by the so called Quartet i e Saudi Arabia the UAE Bahrain and Egypt With a special focus on the Gulf and U S policies respectively both of the authors provide valuable insights regarding the crisis and the future of the Gulf The main division in the region comes as a result of the rise of sectarianism which has transformed into local sectarian and regional geopolitical confrontations among some Gulf States mainly Saudi Arabia and the UAE and Iran Emad Kaddorah in his commentary argues that the regional conflict over the Gulf region is geo sectarian meaning that it is a geopolitical contest which has recently been engulfed by a sectarian dimension Saudi Arabia remains one of the main actors in the region and it deserves special attention The articles of Simon Mabon and May Darwich help to better understand the domestic and foreign policies of Saudi Arabia Mabon looks at the actions of the new crown prince to explore the impact of Bin Salman s influence on both the Kingdom and the Middle East more broadly On the other hand Darwich analyzes the Saudi intervention in Yemen a war that many have started to consider as Saudis Vietnam war More specifically May Darwich offers an alternative explanation for the abrupt Saudi aggressiveness toward Yemen and argues that this intervention is driven by the Saudi leadership aims to assert the Kingdom s status as a regional power in the Middle East Despite Saudi Arabia the UAE is another important actor in the region whose impact is underestimated By focusing on the military bases built by the UAE in the Horn of Africa smail Numan Telci and Tuba zt rk Horoz provide an explanation on the real motivations behind the Emirati foreign policies which have started to focus more on hard power a deviation from the perpetual foreign policies of the other Gulf States Amidst the shattering order of the Gulf Turkey has pursued a careful and balancing policy finding itself sided neither with the Saudi led block nor with the Iranian led block At this point it is important to understand the background of the Turkey GCC states relations and zden Zeynep Oktav in her article brings a detailed analysis of the root causes that led to the policy divergences between Turkey and some GCC states i e Saudi Arabia and the UAE This special issue of Insight Turkey includes five off topic pieces which indeed are closely related with the Gulf affairs In his commentary M Akif Kire ci focuses on the initiatives undertaken by Turkey after Trump declared Jerusalem as the capital of Israel and how the divided Gulf States left aside their disparities to protect the rights of Palestinians against this fallacious decision The article of Osama Anter Hamdi complements Kire ci s commentary as the author provides a comprehensive analysis of the American foreign policy toward

the Arab Israeli conflict since the establishment of the Israeli state Iran of course deserves special attention as the foreign policies of the Gulf States are mostly designed to balance the Iranian influence in the region The three remaining articles of the issue deal with U S Iranian relations the nuclear deal and how Iran and Turkey serve as a model of emulation for other states in the region Written by mran Demir Farhad Rezaei and Ibrahim Khatib and As ad Ghanem respectively these three articles are worth reading in order to better understand the Iranian policies The Gulf on the Verge Ambitions Crises and Shattering Order provides timely analyses for a region that once again has become the linchpin of global affairs We are confident that this issue of Insight Turkey will be a great contribution to the Gulf studies
