people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **Krazy Kat Collection** George Herriman,2020-01-15 Witty raucous and poetic portrayal of a love triangle between a mouse cat and dog hailed as the most creative comic strip of all time Compilation of choice strips from 1913 24 **Krazy Kat** John Alden Carpenter,1922 *T. S. Eliot, France, and the Mind of Europe* Jayme Stayer,2015-09-18 In late 1910 after graduating from Harvard with a master s degree in philosophy the young T S Eliot headed across the Atlantic for a year of life and study in France a country whose poets had already deeply affected his sensibility His short year there was to change him even more decisively as he rubbed up against the artistic philosophical psychological and political currents of early century Paris The absorbent mind of Eliot as shaped by what he later termed the mind of Europe was a node in this interlocking grid of influences As there is no understanding T S Eliot without considering the impact of French art and thought on his development this volume serves both as a centennial commemoration of Eliot s year in Paris and as a reconsideration of the role of France and more widely Europe as they bore on his growth as an artist and critic Most scholarship on Eliot and France has focused on Eliot s relationship to the nineteenth century Symbolists and to the philosophy of Henri Bergson This old frame of reference is broken apart in favor of a much wider field that still takes Paris as its center but reaches across national borders The volume is divided into two overlapping sections the first Eliot and France focuses on French authors and trends that shaped Eliot and on the personal experiences in Paris that are legible in his artistic development The second section Eliot and Europe situates Eliot in a broader matrix including Anglo French literary theory evolutionary sociology and German influences Contributors include several highly respected names in the field of modernist studies including Jean Michel Rabat Jewel Spears Brooker and Joyce Wexler as well as a number of well established Eliot scholars Reflecting multiple perspectives this volume does not offer a single revisionist take on French and European influence in Eliot s work Rather it circles back to familiar territory deepening and complicating the accepted narratives It also opens up new veins of inquiry from unexpected sources and understudied phenomena drawing on the recently published letters and essays that are currently remapping the field of Eliot studies *Manufacturing Desire* Arthur Asa Berger,2017-07-12 The average person in America watches four hours of television per day and spends the equivalent of nine years of his or her life in front of the television set If the attention most people devote to popular culture listening to the news watching soap operas reading the comics were added up it would reveal that most people spend an enormous amount of time with popular culture which becomes in large measure their culture *Manufacturing Desire* is a study of how the mass media broadcast or spread various popular arts further how the media and popular arts play a major role in shaping our everyday lives The television shows we watch the movies we see the radio programs we listen to and all the comic strips we

read influence social behavior They give us ideas about what is good and evil about how to solve problems and about how we should relate to others If we understand this says Berger then the way we think about our media influenced culture will be far different than if we see popular culture as mindless entertainment Berger provides an analysis of the way popular culture and the mass media simultaneously reflect and affect various aspects of American culture and society He examines commercials television shows comics film humor and everyday life in terms of what beliefs and values are found in them what attitudes toward ourselves and our societies are contained in them how they achieve their effects and what they reflect about present day American culture and society This book is analysis of the impact mass media have across America cross culturally and internationally Manufacturing Desire will provide the general reader as well as specialists in communication and information sociology and psychology with a better understanding of the effects of mass media and popular culture on contemporary society

A History of Underground Comics Mark Estren, 2012-09-04 In the land that time forgot 1960s and 1970s America Amerika to some there once were some bold forthright thoroughly unashamed social commentators who said things that couldn't be said and showed things that couldn't be shown They were outrageous hunted pursued hounded arrested busted and looked down on by just about everyone in the mass media who deigned to notice them at all They were cartoonists underground cartoonists And they were some of the cleverest most interesting social commentators of their time as well as some of the very best artists whose work has influenced the visual arts right up until today A History of Underground Comics is their story told in their own art in their own words with connecting commentary and analysis by one of the very few media people who took them seriously from the start and detailed their worries concerns and attitudes in broadcast media and in this book in print Author Mark James Estren knew the artists lived with and among them analyzed their work talked extensively with them received numerous letters and original drawings from them and it's all in A History of Underground Comics What Robert Crumb really thinks of himself and his neuroses how Gilbert Shelton feels about Wonder Wart Hog and the Fabulous Furry Freak Brothers how Bill Griffith handled the early development of Zippy the Pinhead where Art Spiegelman's ideas for his Pulitzer prize winning Maus had their origins and much much more Who influenced these hold nothing sacred cartoonists Those earlier artists are here too Harvey Kurtzman famed Mad editor and an extensive contributor to A History of Underground Comics Will Eisner of The Spirit in his own words and drawings From the bizarre productions of long ago nearly forgotten comic strip artists such as Gustave Verbeek who created 12 panel strips in six panels you read them one way then turned them upside down and read them that way to modern but conventional masters of cartooning they're all here all talking to the author and the reader and all drawing drawing drawing The underground cartoonists drew everything from over the top sex a whole chapter here to political commentary far beyond anything in Doonesbury that is here too to analyses of women's issues and a host of societal concerns From the gorgeously detailed to the primitive and childlike these artists redefined comics and cartooning not only for their generation but also for

later cartoonists In A History of Underground Comics you read and see it all just as it happened through the words and drawings of the people who made it happen And what it did they make happen They raised consciousness sure but they also reflected a raised consciousness and got slapped down more than once as a result The notorious obscenity trial of Zap 4 is told here in words testimony and illustrations including the exact drawings judged obscene by the court Community standards may have been offended then quite intentionally Readers can judge whether they would be offended now And with all their serious concerns their pointed social comment the undergrounds were fun in a way that hidebound conventional comics had not been for decades Demons and bikers funny animals and Walt Disney parodies characters whose anatomy could never be and ones who are utterly recognizable all come together in strange peculiar bizarre and sometimes unexpectedly affecting and even beautiful art that has never since been duplicated despite its tremendous influence on later cartoonists It s all here in A History of Underground Comics told by an expert observer who weaves together the art and words of the cartoonists themselves into a portrait of a time that seems to belong to the past but that is really as up to date as today s headl

Ceilings and Dreams Paul Emmons, Federica Goffi, Jodi La Coe, 2019-07-08 Where is the space for dreaming in the twenty first century Lofty thoughts like dreams are born and live overhead just as they have been represented in Renaissance paintings and modern cartoons Ceilings are often repositories of stories events and otherwise invisible oneiric narratives Yet environments that inspire innovative thinking are dwindling as our world confronts enormous challenges and almost all of our thinking debating and decision making takes place under endless ceiling grids Quantitative research establishes that spaces with taller ceilings elicit broader more creative thoughts Today ceilings are usually squat conduits of technology they have become the blind spot of modern architecture The twenty essays in this book look across cultures places and ceilings over time to discover their potential to uplift the human spirit Not just one building element

among many the ceiling is a key to unlock the architectural imagination Ceilings and Dreams aims to correct this blind spot and encourages architects and designers researchers and students to look up through writings organized into three expansive categories reveries suspensions and inversions The contributors contemplate the architecture of levity and the potential of the ceiling once again as a place for dreaming **The Best American Comics Criticism** Ben
