Income $y$ (£)	Mid-point	Frequency $f$
$0 \leq y < 200$	100	12
$200 \leq y < 240$	220	28
$240 \leq y < 320$	280	22
$320 \leq y < 400$	360	18
$400 \leq y < 600$	500	12
$600 \leq y < 800$	700	8

(You may use  $\sum fy^2 = 12\,452\,800$ )

A histogram was drawn and the class  $200 \leq y < 240$  was represented by a rectangle of width 2 cm and height 7 cm.

(a) Calculate the width and the height of the rectangle representing the class  $320 \leq y < 400$  (3)

(b) Use linear interpolation to estimate the median weekly income to the nearest pound. (2)

(c) Estimate the mean and the standard deviation of the weekly income for these data. (4)

One measure of skewness is  $\frac{3(\text{mean} - \text{median})}{\text{standard deviation}}$ .

(d) Use this measure to calculate the skewness for these data and describe its value. (2)

Katie suggests using the random variable  $X$  which has a normal distribution with mean 320 and standard deviation 150 to model the weekly income for these data.

(e) Find  $P(240 < X < 400)$ . (2)

(f) With reference to your calculations in parts (d) and (e) and the data in the table, comment on Katie's suggestion. (2)

**Third Wave Capitalism** John Ehrenreich,2016-04-05 In Third Wave Capitalism John Ehrenreich documents the emergence of a new stage in the history of American capitalism Just as the industrial capitalism of the nineteenth century gave way to corporate capitalism in the twentieth recent decades have witnessed corporate capitalism evolving into a new phase which Ehrenreich calls Third Wave Capitalism Third Wave Capitalism is marked by apparent contradictions Rapid growth in productivity and lagging wages fabulous wealth for the 1 percent and the persistence of high levels of poverty increases in the standard of living and increases in mental illness personal misery and political rage the apotheosis of the individual and the deterioration of democracy increases in life expectancy and out of control medical costs an African American president and the incarceration of a large percentage of the black population Ehrenreich asserts that these phenomena are evidence that a virulent individualist winner take all ideology and a virtual fusion of government and business have subverted the American dream Greed and economic inequality reinforce the sense that each of us is on our own The result is widespread lack of faith in collective responses to our common problems The collapse of any organized opposition to business demands makes political solutions ever more difficult to imagine Ehrenreich traces the impact of these changes on American health care school reform income distribution racial inequities and personal emotional distress Not simply a lament Ehrenreich's book seeks clues for breaking out of our current stalemate and proposes a strategy to create a new narrative in which change
