Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02
South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience. Florence Nightingale David Amanda L. Golbeck, 2025-02-27 This book examines Florence Nightingale David's life contributions and relationships throughout her life as well as her subsequent legacy. Florence Nightingale David 1909-1993 was the first woman professor in the world's first academic statistics department, served in various British ministries during the war from 1939-1945 and was one of the first women to chair a statistics department in a research university. In this biography the life stories of David are used as a vehicle to explore a variety of questions surrounding culture and engagement in the statistical sciences. What does it take to succeed in an environment that is not inclusive of your demographic? How can stories be used to bring technical material to life for students and other learners? And how can a nontraditional leader succeed in challenging boundaries and moving an enterprise forward? *The New Statesman and Nation*, 1950 *New Statesman*, 1950 Matriculation Examination Questions, 1960* *Matriculation Examination Questions*, 1958* **Matriculation Examination Questions**, 1955 **Matriculation Examination Questions.
