Economic and Social Council,1988      **Proceedings of the Sixteenth Annual Conference of the Cognitive Science Society** Ashwin Ram,Kurt Eiselt,2019-05-23 This volume features the complete text of all regular papers posters and summaries of symposia presented at the 16th annual meeting of the Cognitive Science Society      **Our House Style** AA.VV.,2015-05-08 Firstly I would like to extend my thanks to all those who have made this meeting possible Specifically I would like to mention Professor Cesare Kaneklin who several years ago first came up with this idea of a common shared reflection on the quality of learning I must also underline the contribution of my colleague Michele Faldi who coordinated all those involved in the process teaching staff tutors and outside bodies and who helped me develop and implement this idea Finally recognition goes to all those individuals both inside and outside the University who with great dedication have put their professional skills and experience at the service of this project The path we have chosen is an innovative one our research focuses on how the functions of a tutor may be fulfilled with an area characterized by the dearth of accepted norms that of the Specializing University Master There are many different types of Master Each is related to a particular market and has its own specific teaching needs and organizational characteristics Over the years our University has met and continues to meet a considerable number of students through these Masters What does the Universit Cattolica transmit through these Masters What methods and tools does it use to communicate This has been the focus of our research and is what we have attempted to present here What emerges is that the University possesses what we might call a certain House Style a feature which over time has become a sort of claim Specializing Masters are titles conferred by the University and have therefore their own type of organizational framework of learning paths At a certain point and within this framework a new function that of the tutor came to light which gradually took shape and grew in importance It is seen as a function rather than a profession as it implies a much more interactive channel of communication than we might imagine These new

connections between the student and the organizational framework of the Master represent an interesting and worthwhile research area. It is satisfying to see the development of an idea which forms an integral part of our University, an aspect which our postgraduate students will have learnt almost by osmosis. Excerpt from Introduction Diversity and Inclusion in Higher Education Daryl G. Smith, 2014-04-16. In addition to many other issues that touch higher education around the world, diversity and equity in higher education is fast becoming a major opportunity and challenge to institutions, countries, and regions. The increasing centrality of diversity is fueled in part by changing demographics, immigration, social movements, calls for remedies to historic grievances, and the relationship between identity and access to power. This book will provide an opportunity to look at efforts at institutional change with respect to diversity in several countries where issues of diversity are moving beyond simply access for diverse populations to efforts at institutional transformation. Its purpose is to provide a comparative perspective with the hope that we will be able to see patterns across these contexts from which we might learn. Amongst other subjects, it will address the historic and contemporary context for diversity, established and emerging salient identities, how diversity is framed at a national and institutional level, the prevailing strategies and policies for engaging diversity again at the national and institutional level, the role of special purpose institutions. This critical book is essential for higher education scholars and practitioners with backgrounds in higher education. Mitigating Inequality Robert T. Teranishi, Walter R. Allen, Loni Bordoloi Pazich, Marcelo Knobel, 2015-12-04. As colleges and universities extend academic programs abroad, develop internationally mixed research teams, and create international curricular initiatives, it is essential to ensure that access to a high quality education remains a key component of the research and policy agenda transnationally.
